

ANESTHESIOLOGY

Volume 12

INDEX OF SUBJECTS

* Asterisk indicates titled subjects of articles

- Age,
 effect on anoxia, 421
 effect on postspinal headache, 479
 relation to recovery time, 157
- Amytal,
 combined with seconal, 642
 spinal anesthetic effects of, 315
- Analgesics, effect on labor pains, 189*
- Anemia, effect on anoxia, 421
- Anesthesia,
 automatic, 574*
 balanced, 135*
 basal, 447*
 block,
 caudal, 164*, 397
 continuous phrenic nerve, 270
 continuous spinal, 708
 hyaluronidase with, 27*
 lumbar paravertebral, 391
 peridural, 73*
 prolongation of, 270*
 serial stellate ganglion, 128
 therapeutic, 270*, 693*
 conduction, 653*
 depth of, effect on heart, 220
 endobronchial, 344*
 endotracheal, 664
 electrocardiographic studies during, 411*,
 673*
 of children, 401*
 electroencephalographic, 574*
 for carinal resection, 740*
 for children, 135*, 376*, 401*
 psychologic preparation for, 293*
 for fenestration operation, 465*
 for obstetrics, 680*, 693*, 728*
 service, 745*
 for thoracic surgery, 73*, 344*, 733*
 induction, effect on heart, 442*, 673*
 literature, 767
 one-lung, 344*
 service, 745*
 spinal,
 complications following, 321*, 477*, 717*
 deaths following, 751
 effect of sympathomimetic amines on,
 597*
 for cesarean section, 172, 376*
 hypobaric, 301*
 hypotension during, 455*
 lateral approach, 239*
 motor driven continuous, 708*
 prolongation of, 431*
 with barbiturates, 315*
 topical, hyaluronidase with, 688*
 Anesthesia Study Commission, report of, 583*
 Anesthesiologist, as consultant, 244*
 Anesthesiology,
 department of, 234*, 745*
 postgraduate training in, 50*
 residents, 388
 study commission, 583*
 teaching of, 486*
 Anesthetics,
 inhalation, effect on myocardium, 19*
 local, hyaluronidase with, 27*, 164*, 611*,
 688*
 Anoxia, 762*
 detection of, 541*
 factors influencing, 420*
 Antiseptics, effect in spinal anesthesia, 718
 Apomorphine, analgesic action, 190
 Apparatus,
 anesthesia study, 276
 arm rest-screen, 254
 catheter stop, 664
 caudal anesthesia, 397
 dermalor, rectal element for, 122
 electrophrenic respirator, 123
 endotracheal,
 forcep, 514
 stilet, 667
 gas analyzer, 173*
 laryngoscope,
 attachment for suspension laryngoscopy,
 658*
 handle for, 770
 non-reflecting surface, 516
 oxygen intravenously, 185
 plastic needle, 772
 screen-arm rest, 254
 shoe conductivity tester, 506
 spinal anesthetic, 708*
 needle for, 321*, 515
 shield, 256

- stilet for endotracheal tubes, 667
 trichlorethylene inhaler, 685
Arteriogram, vocal cord paralysis following, 511
Barbiturates,
 comparison of action, 642*
 effect on pain, 636
 spinal anesthetic effects, 315*
 with curare, 648*
2,5-bis-(3-diethylaminopropyl amino)-benzoquinone-bis-(benzyl chloride) (see mytolon)
Bleeding,
 effect of controlled respiration on, 41
 effect of pentamethonium iodide on, 253
Blood,
 gases, effect of pentothal, 308*
 loss during surgical procedures, 90*
 transfusion, 728*
 reaction, 85*
Blood pressure,
 control during eclampsia, 694
 during spinal anesthesia, 455*
Brain,
 blood flow of, 308*
 effect on anoxia, 762*
 oxygen consumption, 308*
C₅₀ (See decamethonium)
Carbon dioxide, measurement of, 173*
Causalgia, 1*
Chloroform, effect on heart, 19, 567*
Circulation,
 effect of controlled respiration on, 41
 reflex responses of, 556*
Cocaine, effect on heart, 414
Complications,
 after arteriogram, 511
 after paravertebral injection, 391*
 after spinal anesthesia, 462, 717*
 headache, 321*, 477*
 laryngeal tumor, 129
 dermatitis from rubber, 771
 granuloma, 776
 in obstetrics, 749
 neurologic, 717*
 retroperitoneal hemorrhage, 391*
 value of recovery room in prevention, 473
Convulsions, drug induced, 491*
Curare,
 effect on anoxia, 550
 effect on gastric dilatation, 41
 for treatment of torticollis, 517
Curare preparations, 14*
Cyclopropane,
 clinical evaluation of, 109*
 effect on heart, 20, 567*, 673*
 action of dibenamine, 216*
 action of procaine amide, 328*
 electrocardiographic studies, 412*
 induction phenomena, 442*
 shock, 111*
DEAE (see diethylaminoethanol)
Decamethonium bromide,
 before intratracheal intubation, 3*
 in abdominal surgery, 366*
 with evipal, 648*
Decicaine (see pontocaine)
Demerol,
 analgesic action, 190
 supplement to nitrous oxide, 145*
Dermalol, rectal element for, 122
Deuterocarbons, effect on heart, 230*
Dibenamine, effect on heart, 216*
Dideutero-acetylene, effect on heart, 230*
Diethylaminoethanol, effect during intubation, 411*
Dimethyl ether of d-tubocurarine chloride, 14*
Dimethyl ether of d-tubocurarine iodide, 14*
Dolorimetry, 189*
Dramamine, 256
Dromoran, 145, 225*
d-Tubocurarine,
 clinical evaluation, 14*
 with barbiturates, 648*
Eclampsia, anesthesia in management of, 693*
Electrocardiographic studies, 412*, 442*
Electrophrenic respirator,
 for localizing phrenic nerve, 270*
 portable, 123
Emphysema, effect of controlled respiration, 42
Ephedrine, effect on duration of spinal block, 432*, 595*
Epinephrine, effect on duration of spinal block, 432*, 595*
Ergotrate, incompatibility with vasopressors, 752
Ether,
 diethyl,
 effect on heart, 19, 414, 442*, 567*, 673*
 induction, anoxia during, 547*
 measurement in mixtures, 276*
 divinyl, 20, 442*
Ethyl chloride, effect on heart, 442*
Evipal,
 spinal anesthetic effects, 315
 with decamethonium bromide, 648*
Explosion,
 precautions, 505
 prevention, 246
Extubation, effect on anoxia, 551
Headache, postspinal, 321*, 477*
Heart,
 during cyclopropane anesthesia, 111
 effect of dibenamine, 216*
 effect of procaine amide, 328*
 during endotracheal anesthesia, 411*, 673*
 during induction of anesthesia, 442*
 effect of anesthetics on, 19*, 567*
 effect of deuterocarbons on, 230*

- effect of procaine on, 261*
 effect of trichlorethylene, 685
 herniation of, 774
 rate, measurement of, 276
- Hemorrhage,
 obstetric, 728*
 retroperitoneal, 391*
- Hering-Breuer reflex, during controlled respiration, 43, 45
- Heroin, 190
- Hiccup, treatment, 270*
- Hyaluronidase,
 in caudal block, 164*
 in local anesthesia, 611*
 in nerve block anesthesia, 27*, 611*
 in spinal anesthesia, 611*
 in topical anesthesia, 688*
 to relieve pain of extravascular injection, 398
- 3-Hydroxy-N-methyl morphinan hydrobromide (see dromoran)
- Hyperglycemia, effect on anoxia, 421
- Hyperthyroidism, effect on anoxia, 421
- Hypoglycemia, effect on anoxia, 421
- Hypothyroidism, effect on anoxia, 421
- Infra-red absorption tube, 173*
- Injectomat, 708*
- Intubation, endotracheal,
 effect on anoxia, 551
 forcep for, 514
 heart during, 673*
 prolonged, 662
 reflex responses to, 556*
 size of tubes, 670
 syncurine induction for, 63*
 topical anesthesia for, 688*
- Kemithal, for children, 135*
- Laryngoscope,
 extension arm for, 658*
 non-reflecting surface, 516
- Laryngoscopy,
 reflex responses to, 556*
- Laryngospasm,
 during cyclopropane anesthesia, 112
 effect on anoxia, 551
- Larynx,
 child's, 401*
 tumor of, 129*
- Liver,
 damage, effect of oxygen, 67*
 function, effect of pentothal, 67*
- Mephenesin (see myanesin)
- Metahydroxyprocaine, local anesthetic action of, 57*
- Methylal, intravenous use of, 100*
- Metrazol convulsions, effect of oxygen, 491
- Morphine sulfate,
 analgesic action, 190
 supplementation of nitrous oxide, 145*
 Myanesin, treatment of tetanus, 120*
 Mytolon chloride, 753*
- Needle, spinal anesthetic, 321*, 515
 size effect on headache, 480
- Nembutal (see phenobarbital)
- Neosynephrin,
 dilute solutions, 455*
 effect on duration of spinal block, 432*, 595*
- Nitrogen, measurement in anesthetic mixtures, 276*
- Nitrous oxide,
 controlled respiration during use of, 43, 45
 effect on heart, 20, 416
 in anesthetic mixtures, 173*, 276*
 induction, anoxia during, 550
 supplementation of, 145*
 with pentothal, 661
 with pentothal-decamethonium, 366*
 N,N-dibenzyl- β -chloroethylamine (see dibenamine)
- Norepinephrine, effect in hemorrhage, 728*
 Nupercaine, dosage tables, 303
- 15431 (see dromoran)
- Oscillograph, 277
- Oximeter,
 modified Millikan, 542
 use during anesthesia, 541*
- Oxygen,
 arterial, measurement of, 276
 consumption during pentothal anesthesia, 308*
 effect on convulsions, 491*
 effect on liver function, 67*
 in anesthetic mixtures, measurement of, 276*
 intravenously, 181*
- Pain, 633*
 clinic, 601*
 labor, effect of analgesics, 189*
 modifying factors, 635*
 physiology of, 1*
- Pentamethonium iodide, effect on bleeding, 253
- Pentobarbital sodium, clinical use of, 465*
- Pentothal sodium,
 compared with seconal, 642
 controlled respiration after use of, 45
 dosage, effect of demerol on, 155
 effect on brain, 308*
 effect on heart, 417
 effect on liver function, 67*
 spinal anesthetic effects of, 315
 stock solution of, 774
 with decamethonium, nitrous oxide, 366*, 648

- Phenobarbital,
 compared with seconal, 642
 spinal anesthetic effects, 315*
- Pituitrin, cyclopropane incompatibilities, 752
- Polyethylene tubing, use in nerve block, 271
- Pontocaine,
 hyaluronidase with, 690
 nerve block with, 517
- Position, effect on controlled respiration, 41
- Postanesthesia room (see recovery room)
- Premedication of children, 293
- Procaine amide,
 effect on heart, 328*, 673*
- Procaine hydrochloride,
 effect on heart, 261*
 spinal anesthesia studies, 595*
- Pronestyl (see procaine amide)
- Psychology, of children, 293*
- Pulse pressure, effect of dibenamine, 220
- Recovery room, 470*, 604*
- Relaxants, 753 (see curare)
- Respiration,
 controlled, 33*
 measurement of, 277
- Saline solution, analgesic effect, 190
- Scopolamine,
 analgesic action, 190
 effect on sweating, 627*
- Seconal,
 clinical use, 642*
 in polyethylene glycol, 447*
 intravenous preparation of, 447*
 spinal anesthetic effects of, 315
- Servo-anesthetizer, 581
- Soap, effect on spinal cord, 718
- Soda lime, trichlorethylene incompatibility, 682
- Sodium allyl 1-methylbutyl barbiturate (see seconal)
- Sodium cyanide convulsions, effect of oxygen, 491
- Spinal fluid, specific gravity, 129
- Spirothal, 648*
- Stomach, effect of curare, 41
- Strychnine convulsions, effect of oxygen, 491
- Subarachnoid puncture, lateral approach, 239*
- Surital,
 with seconal, 642
 with curare, 648*
- Sweating, effect of scopolamine, 627*
- Sympathomimetic amines, effect on duration of spinal anesthesia, 595*
- Syncurine (see decamethonium bromide)
- Tetanus, treatment, use of myanesin, 120*
- Tetradeutero-ethylene, effect on heart, 230*
- Torticollis, treatment, use of curare, 517
- Trichlorethylene,
 for children, 135*
 for obstetrics, 680*
- Uterus, effect of analgesics, 210*
- Vasoconstrictors, effect on duration of spinal anesthesia, 431*
- Vocal cord paralysis, after arteriogram, 511
- Vomiting,
 deaths following, 750
 effect of dramamine, 256
- Whitacre needle, 481

INDEX OF AUTHORS AND TITLES OF ORIGINAL ARTICLES

	PAGE		PAGE
Acierno, L. J.: Effects of ether, cyclopropane and chloroform on the isolated auricle of the cat	567	new agent for producing muscular relaxation. Preliminary report	753
Adriani, John: Seconal sodium as a basal hypnotic and adjunct to anesthesia—an evaluation of an improved preparation for intravenous administration	447	Backup, P. H.: Use of vasoconstrictors to prolong spinal anesthesia	431
Allahwala, Akhtar: Effect of inhalational anesthetic agents on the myocardium of the dog	19	Bailey, P. J.: Syncurine in endotracheal intubation	63
Anderson, B. M.: Manually assisted and controlled respiration: Its use during inhalation anesthesia for the maintenance of a near-normal physiologic state. A review. Part III	33	Beecher, H. K.: Pain and factors that modify it	633
Anderson, C. D.: Supervised emergence of the anesthetized patient	604	Bell, F. K.: Anesthesia XXXVI. Anesthesia with deuterocarbons and cardiac automaticity.	230
Arrowood, Julia G.: Mytolon chloride: a		Bennett, L. L.: Effect of inhalational anesthetic agents on the myocardium of the dog	19
		Bergner, R. P.: Severe neurologic complications following spinal anesthesia: report of six cases	717
		Berkowitz, Samuel: Spinal anesthesia in children: report based on 350 patients under 13 years of age	376

Beyer, R. E.: Apparatus for the continuous and simultaneous measurement of carbon dioxide and nitrous oxide in respired air	173	Carr, J. C.: Anesthesia XXXV. The local anesthetic effect of methahydroxyprocaine	57
Bickford, R. G.: Clinical application of automatic anesthesia	574	Anesthesia XXXVI. Anesthesia with deuterocarbons and cardiac automaticity	230
Blair, H. A.: Action of procaine on the heart	261	Carron, Harold: Nembutal in the fenestration operation	465
Bollman, J. L.: Some factors influencing the effects of anoxic anoxia	420	Cole, Frank: Intravenous oxygen	181
Bonica, J. J.: Blood loss during surgical operations	90	Cotten, M. deV.: Effects of high oxygen atmospheres on drug induced convulsions	491
Endobronchial anesthesia for intrathoracic surgery	344	Crawford, O. B.: Peridural anesthesia in thoracic surgery, a review of 677 cases	73
Use of vasoconstrictors to prolong spinal anesthesia	431	Cullen, S. C.: Clinical evaluation of some new curare preparations	14
Brasher, C. A.: Peridural anesthesia in thoracic surgery, a review of 677 cases	73	Intravenous supplementation during nitrous oxide anesthesia: application of multiple covariant analysis to the comparison of demerol, morphine and a new potent analgesic drug (15431)	145
Brodie, B. B.: Effect of sympathomimetic amines on duration of procaine spinal anesthesia	595	Davis, F. E.: Manually assisted and controlled respiration: its use during inhalation anesthesia for the maintenance of a near-normal physiologic state—A review. Part III	33
Brotman, Milton: Intravenous supplementation during nitrous oxide anesthesia: application of multiple covariant analysis to the comparison of demerol, morphine and a new potent analgesic agent (15431)	145	deCistiis, V. L.: Motor driven continuous spinal anesthesia with jerzy glass "Injectomat"	708
Brown, H. O.: Protection by dibenamine against "spontaneous" arrhythmias occurring during cyclopropane anesthesia	216	DiPalma, J. R.: Effects of ether, cyclopropane and chloroform on the isolated auricle of the cat	567
Buckingham, W. W.: Peridural anesthesia in thoracic surgery, a review of 677 cases	73	Dripps, R. D.: Blood flow and oxygen consumption of the human brain during anesthesia produced by thiopental	308
Burgison, R. M.: Anesthesia XXXVI. Anesthesia with deuterocarbons and cardiac automaticity	230	Reflex circulatory responses to direct laryngoscopy and tracheal intubation performed during general anesthesia	556
Burstein, C. L.: Electrocardiographic studies during endotracheal intubation. III. Effects during general anesthesia and intravenous diethylaminoethanol	411	Eckenhoff, J. E.: Some anatomic considerations of the infant larynx influencing endotracheal anesthesia	401
Electrocardiographic studies during endotracheal intubation. IV. Effects during cyclopropane or cyclopropane-ether anesthesia and intravenous procaine amide	673	Use of hyaluronidase in regional nerve blocks	27
Bush, O. F.: Seconal sodium as a basal hypnotic and adjunct to anesthesia—an evaluation of an improved preparation for intravenous administration	447	Editorials: The Anesthesiologist as a consultant	244
Clinical investigation	114	Factors affecting the supply of anesthesiology residents	388
The hospital trustee	656	A plea for the "art of anesthesia" ..	500
Too much and too soon	767	Egner, W. M.: Effect of intravenous pentothal sodium with or without inhalation of oxygen on liver function	67
Cappe, B. E.: Treatment of massive hemorrhage in obstetric cases by transfusion and norepinephrine ..	728		
Carmichael, E. B.: LD ₅₀ of pentobarbital sodium for both nursed and unnursed newborn rats	340

INDEX OF AUTHORS AND TITLES OF ABSTRACTS

	PAGE		PAGE
Aikenhead, D. C.: Anesthesia in transurethral surgery	537	Hubbard, S. T., Jr.; Schneideer, G. F., and Kenney, L. J.: High segmental spinal anesthesia; a preliminary report	671
Ansbro, F. P.: Intraspinal segmental alcohol block for relief of intractable pain; a preliminary report	672	Johnstone, M.: Cyclopropane anaesthesia and ventricular arrhythmias	671
Bailey, C. P.; Glover, R. P., and O'Neill, T. J. E.: The surgery of mitral stenosis	538	Keats, A. S., and Beecher, H. K.: Pain relief with hypnotic doses of barbiturates and a hypothesis	778
Bartels, E. C.: Basal metabolism testing under pentothal anesthesia	131	Kretschmer, H. E., and Adriani, J.: Comparative study of certain vasoconstrictors on the duration of spinal anesthesia with procaine	778
Bass, S.: Recent advances in anesthesiology	133	Lorber, J.: Use of rectal thiopentone in children	671
Belinkoff, S., and Orrin, W. H., Jr.: Intravenous alcohol during labor	539	Lundy, J. S.: Sacral block anesthesia in proctologic operations	540
Carnegie, D. M., and Hewer, A. J. H.: Clinical trial of xylocaine in local anaesthesia	537	McIntyre, A. R., and Downing, F.: Anesthetic properties of procaine amide (Pronestyl) and other amide analogues of local anesthetic compounds	259
Covner, A. H., and Halpern, S. L.: Fatal agranulocytosis following therapy and "Presidon" (3,3-diethyl-2,4-dioxotetrahydropyridine), a new hypnotic agent	537	McNealy, R. W.: A new analgesic combination for routine use in control of pain	259
Crispell, L. S., and Hampton, L. J.: Laryngeal edema complicating endotracheal anesthesia in children; case reports	536	Migliarese, J. F.; Bauer, E. C., and Randall, L. O.: Prevention of procaine convulsions by Presidon and sodium pentobarbital	259
Dausset, J.: Lower nephron nephrosis; report of treatment of forty-four patients by repeated replacement transfusions	260	Randall, L. O.; Hagan, E., and DeMartini, T.: Anticurare action of phenolic quaternary ammonium salts	777
Foldes, F. F., Murphy, A. J., and Wilson, B. B.: Effects of various anesthetic agents on inorganic serum phosphorus levels	778	Ruben, J. E., and Anderson, E.: Hexylecaine hydrochloride; a preliminary report of its clinical use in comparison with procaine	131
Gillespie, N. A.: Blind nasotracheal intubation	400	Schaff, B., and Spendlove, J. C.: Intravenous administration of procaine hydrochloride for painful prolapsed hemorrhoids	132
Therapeutic anaesthesia. An usual case	777	Teixeira, Jesse: Extradural selective catheterization	536
Greene, B. A.; Goldsmith, M., and Lichtig, S.: Prevention of headache after spinal analgesia for vaginal delivery by the use of hydration and a 24 gauge needle	133	Walls, N. S.: A new principle in circle absorption anaesthetic machines	777
Hewer, C. L.: Trichlorethylene as an inhalation anesthetic and analgesic	538		

BOOK REVIEWS

Comroe, Julius H., Jr.: The physiologic basis for oxygen therapy. Price, \$2.00. Pp. 85. Charles C Thomas, Springfield, Illinois, 1950	505
D'Allaines, I.: Chirurgie du Coeur. (Price not given.) Pp. 346, 76 figures. L'Expansion scientifique française, Paris, 1950	.. 504
Dry, Thomas J.: Manual of cardiology. 2nd Edition. Price, \$5.00. Pp. 333, 97 illustrations. W. B. Saunders, Philadelphia, 1950	119
Neffson, A. Harry: Acute laryngotracheobronchitis. Price, \$5.00. Pp. 179. Grune & Stratton, 1949	119
Windle, William F.: Asphyxia neonatorum: Its relation to the fetal blood, circulation and respiration and its effects upon the brain. Price, \$2.00. Pp. 70. Charles C Thomas, Springfield, Illinois, 1950	390

TABLES, ILLUSTRATIONS, ETC.

PAGE	PAGE
Graphs: Physiology of pain	9
Tables: Curare preparations	15, 16
Graphs: Respiration, curare preparations	16, 17
Graphs: Effect of anesthetics on myocardium	21-24
Tables: Hyaluronidase in regional nerve blocks	28
Table: Manually assisted respiration	44
Graphs: Metahydroxyprocaine	60
Graphs: Effect of pentothal on liver function	70, 71
Table: Peridural anesthesia in thoracic surgery	75
Pictures: Peridural anesthesia in thoracic surgery	77, 78
Chart: Blood loss	92
Tables: Blood loss	93, 94
Tables: Methylal	103-105
Picture: Dermal, rectal attachment	122
Pictures: Electrophrenic respirator	123, 126
Diagram: Electrophrenic respirator	124
Graph: Electrophrenic respiration	125
Sketch: Electrophrenic respirator, electrode	127
Tables: Intravenous supplementation during anesthesia	148-150
Graphs: Intravenous supplementation during anesthesia	147, 151-155, 157-161
Graphs: Hyaluronidase in caudal anesthesia	167-169
Diagrams: Gas analyzer	174-176
Graphs: Gas analyses	177, 178
Graphs: Labor pains intensity	190, 195, 196, 197, 200, 201, 203, 205, 206, 208
Tables: Labor pain intensity	196, 198, 201, 202
Pictures: Labor pain intensity	191, 203
Tables: Dibenzamine, effect on arrhythmias	218, 221
Graphs: Dibenzamine, effect on arrhythmias	219, 220
Tables: Dromoran	226-229
Graphs: Deuterocarbons	232
Pictures: Lateral subarachnoid puncture	241
Picture: Electrical equipment for hospital	247
Diagrams: Electrical equipment for hospitals	250, 251
Pictures: Ether-screen and arm rest	254, 255
Pictures: Shield for continuous spinal needle	256
Graphs: Action of procaine on heart	263, 264, 265, 267
Pictures: Prolonged nerve block	271-273
Graphs: Gas analyses	277, 278, 284-290
Pictures: Gas analyzers	279, 280
Table: Ether vapor concentrations	283
Table: Nupercaine spinal analgesia	303
Tables: Pentothal anesthesia, brain during	310, 311
Tables: Spinal anesthetic effect of barbiturates	316, 317
Sketch: Dural puncture	324
Table: Headache following spinal anesthesia	326
Tables: Procaine amide	329, 330, 333
Graphs: Procaine amide	330-337
Tables: Toxicity of pentobarbital sodium	341, 342
Sketches: Endobronchial anesthesia	346, 347, 350, 351, 355, 359
Pictures: Endobronchial anesthesia	352, 354
Table: Endobronchial anesthesia	360
Tables: Syncurine	367-371, 374
Table: Spinal anesthesia in children	383
Sketch: Relation of nerve to blood vessels, lumbar area	392

Graphs: Prothrombin time after hemorrhage392, 393
 Pictures: X-rays after retroperitoneal hemorrhage394, 395
 Picture: Apparatus for continuous caudal block 397
 Sketches: Infant larynx402-405
 Graph: Relation of larynx to vertebral column 403
 Tables: Infant larynx404, 406
 Table: Studies during endotracheal intubation 412
 Graphs: Heart action during endotracheal intubation414, 415
 Diagram: Apparatus for oxygen studies 422
 Graphs: Anoxia studies 423-427
 Tables: Vasoconstrictors in spinal anesthesia433-436
 Graphs: Heart action during induction of anesthesia444, 445
 Graphs: Seconal sodium studies448-449
 Graphs: Neosynephrin in hypotensive states458-461
 Tables: Nembutal in fenestration operation467, 468
 Tables: Recovery room studies474, 475
 Graphs: Postspinal headaches479-483
 Protocols: High oxygen atmosphere studies 495
 Table: High oxygen atmosphere studies 496
 Pictures: Shoe tester507-510
 Diagram: Shoe tester wiring 510
 Pictures: Forceps for use with endotracheal tubes 514
 Pictures: Modified Tuohy needle ..515, 516
 Picture: Nonreflecting laryngoscope blades 517
 Pictures: Oximeter542, 543
 Graphs: Arterial oxygen studies ...545-553
 Tables: Circulatory responses to anesthesia558, 559
 Graphs: Blood pressure during anesthesia560-562
 Tables: Effect of gases on heart ...568, 571
 Graphs: Effect of gases on heart ...569, 570
 Graphs: Automatic anesthesia ..575, 578, 579
 Picture: Automatic anesthetizer 576
 Table: Automatic anesthesia 580
 Records: Anesthetic study committee.585-590
 Graphs: Sympathomimetic amines ..596-598
 Table: Sympathomimetic amines 598
 Records: Pain clinic 602
 Diagrams: Post anesthesia unit 605
 Pictures: Postanesthesia stretchers .607, 609
 Tables: Hyaluronidase in analgesia .613, 614
 616-620
 Table: Action of scopolamine 630
 Tables: Seconal644, 645
 Tables: Barbiturates with syncurine .648-652
 Pictures: Laryngoscope with attachment659-660
 Pictures: Catheter stop664-665
 Pictures: Silet for endotracheal tubes 667-669
 Graphs: Heart action during intubation 676
 Tables: Trichlorethylene in obstetric anesthesia682-685
 Table: Hyaluronidase with topical anesthesia 690
 Tables: Conduction anesthesia in eclampsia693, 694
 Records: Course of anesthesia in eclampsia696-699, 701, 702, 704
 Picture: Injectomat 709
 Graphs: Anesthesia with use of Injectomat711, 712
 Tables: Anesthesia with use of Injectomat713, 714
 Tables: Anesthesia in thoracic surgery 735-737
 Chart: Obstetric anesthesia service 748
 Tables: Obstetric anesthesia service .749, 750
 Pictures: Laryngoscope handle770, 771
 Picture: Allergic dermatitis 772
 Sketch: Plastic needle 773
 Pictures: Stock solution of pentothal ... 775

MISCELLANY
