INDEX OF SUBJECTS

Subject entries are made for all articles; BOOK REVIEWS, however, are listed only under this heading. The name of the author, in brackets, follows the subject entry. Matter pertaining to societies is indexed under the individual society name.

Abdomen

- surgery, anesthetic management for massive intra-abdominal resections [abstract], 100
- surgery, prevention of atelectasis or pneumonia following [Greene & Berkowitz], 166

Adenosine Triphosphate (ATP)

- dephosphorylation by central depressants and stimulants, *in vitro* studies [Lu & Krantz], 348

Adrenalin: see Epinephrine

Adrenals

- pituitary-adrenal response to surgical trauma and anesthesia, cosinopenic response [Traina & others], 449

Allergy

- dermatitis due to rubber endotracheal tubes [De Blasi], 211

N-Allylnormorphine

- effect upon the respiratory depression due to morphine in anesthetized man [Landmesser & others], 535

American Board of Anesthesiology

- notice of examinations, 375

American College of Anesthesiologists

- notice of examinations, 389, 397

American Society of Anesthesiologists, Inc.

- annual meeting editorial, 505
- notice of annual meeting, 125, 225, 336, 465
- program, annual meeting, 472
- refresher courses, 358
- summary of proceedings of House of Delegates, 508

Amobarbital Sodium (amytal sodium®)

- local anesthetic effects [Schiller], 321

Amytal Sodium®: see Amobarbital Sodium

- Analgesia: see under Anesthesia; Pain, relief of

Anesthesia: see also under names of specific agents and procedures

- anorectal, new method, postoperative [abstract], 107
- apparatus: see Apparatus
- block, continuous epidural, in the treatment of pancreatitis [Walker & Pemberton], 33
- block, pudendal with hyaluronidase [abstract], 105
- continuous-drop subarachnoidal block with dilute procaine solution for labor and delivery [abstract], 417
- cortisone problems involving [Lundy], 376
- cyclopropane, increase in central venous and arterial blood pressures during [Price & others], 1
- cyclopropane, postanesthetic hypotension following, relationship to hypercapnia [Buckley & others], 226
