<b>Endocrinology in Anaesthesia and Surgery</b>	H. Stoeckel T. Oyama (Editors)	New York, New York Springer-Verlag 1980	203	\$ 55.50
<i>This volume contains the contributions of internationally renowned anesthesiologists, biochemists, surgeons, endocrinologists, gynecologists, internists, and neurologists to a symposium on the latest findings as to the role of the endocrine system during anesthesia and surgery.</i>				
<b>Pediatric Anesthesia: A Guide to Its Administration</b>	Bernard W. Mayer, M.D.	Philadelphia, Pennsylvania J.B. Lippincott Co. 1980	272	\$ 35.00
<i>A concise and practical how-to-do-it guide to the selection and administration of pediatric anesthesia and to the avoidance of its possible complications.</i>				
<b>Monitoring During Anesthesia International Anesthesiology Clinics Volume 19, Number 1 Spring 1981</b>	Gary R. Gerson, F.F.A.R.C.S. (Editor)	Boston, Massachusetts Little, Brown & Co. 1980	215	\$ 19.95
<i>The intention of this issue is to provide information and guidance in the techniques and choice of monitoring in aspects of current anesthetic practice, reviewing and updating knowledge in this field.</i>				
<b>Artificial Ventilation: Technical, Biological and Clinical Aspects</b>	J. P. Payne J. A. Bushman (Editors)	London, England Academic Press 1980	164	\$ 31.00
<i>Each of the chapters in this book deals with many facets of artificial ventilation. Collectively they demonstrate both the necessity and benefits that accrue from a comprehensive understanding of the subject by both the designers and users of ventilators.</i>				
<b>Management of Head Injuries (Volume 20-Contemporary Neurology Series)</b>	Bryan Jennett, M.D., F.R.C.S. Graham Teasdale, M.R.C.P.F.R.C.S.	Philadelphia, Pennsylvania F.A. Davis 1980	361	\$ 35.00
<i>This series offers concentrated information on the latest developments in the field of neurology and neurosurgery. This particular clinical guide not only records the authors' exhaustive first-hand experience, it also critically examines the data they have compiled from medical centers throughout the world.</i>				
<b>The Therapy of Pain Volume 6</b>	Mark Swerdlow, M.D. (Editor)	Philadelphia, Pennsylvania	250	\$ 22.75
<i>The object of this book is to provide a critical and constructive review of current writings and ideas on a wide range of aspects of the nature of intractable pain, particularly of present-day practice and new ideas on treatment.</i>				
<b>Principles of Clinical Measurement</b>	M. K. Sykes M. D. Vickers C. J. Hull	Boston, Massachusetts Blackwell Scientific Publications 1980	325	\$ 55.50
<i>This book is a revision to Principles of Measurement for Anaesthetists. The second edition seems to broaden the coverage and tries to provide a simple text that would be of use not only to anesthetists but also to physicials, surgeons, pediatricians, and obstetricians.</i>				
<b>Controversy in Anesthesiology</b>	James E. Eckenhoff, M.D.	Philadelphia, Pennsylvania W. B. Saunders 1980	312	\$ 29.00
<i>The purpose of the volume is to stimulate thought, in some instances, to lay aside unwarranted acceptance of supposed fact and in others to call for the accumulation of data.</i>				
<b>Drug Interactions in Anesthesia</b>	N. Ty Smith, M.D. Ronald D. Miller, M.D. Aldo N. Corbascio, M.D. (Editors)	Philadelphia, Pennsylvania Lea & Febiger 1980	351	\$ 27.50
<i>The aim of this book is to provide guidance and to introduce some logic and method into one of the most persistent problems of anesthetic practice.</i>				
<b>Hazards and Errors in Anaesthesia</b>	D. A. Buxton Hopkin, M.D.	New York, New York Springer-Verlag 1980	296	\$ 24.80
<i>This book has a two-fold purpose, first to provide information for beginners about the pitfalls and hazards of anesthesia and second to help the occasional anesthetist in remote areas when confronted with requests to anesthetize for unfamiliar surgical procedures.</i>

<b>Anaesthesiology, ICS 538</b>	E. Rugheimer M Zindler (Editors)	New York, New York Elsevier, North-Holland 1980	1,068	\$155.50
<i>This Excerpta Medica publication documents the scientific papers presented at the International Congress meeting in Hamburg, September 14-21, 1980. This program was attended by more than 5,000 persons in which a total of 1,394 presentations were delivered.</i>				
<b>Pain and Anxiety Control in Dentistry</b>	Stanley R. Spiro (Editor)	Englewood, New Jersey Jack K. Burgess 1980	376	No price given
<i>In this book current methods in the control of pain and anxiety mechanisms are clarified; available pharmacologic agents are evaluated; and criteria to judge the patient's fitness for the selected method of pain control are studied. Major sections are devoted to preoperative management, to control of postoperative pain, and prevention and management of emergencies.</i>				
<b>Respiratory Patient Care</b>	Kanute P. Rarey John W. Yoursey	Philadelphia, Pennsylvania J. B. Lippincott 1980	400	\$ 22.95
<i>A book written for all health care professionals. A reference, resource, and guide useful in reviewing specific techniques, in developing new procedures and procedure manuals and guiding patient care. It is designed to act as a base upon which the reader can organize the clinical and technical concept of cardiopulmonary care and to aid in daily patient care.</i>				
<b>Preoperative Pulmonary Preparation—A Clinical Guide</b>	Peter M. S. Margand Charlie G. Brooks, Jr. James W. Hunter II	Baltimore, Maryland Williams & Wilkins 1980	135	\$ 13.95
<i>This book is written primarily as a clinical guide to medical students, house staff, nurses, and respiratory therapy students in evaluating the respiratory status of surgical patients.</i>				
<b>Manual for the Management of Cardiac Arrest in the Hospital</b>	Erik Sandoe Alvito Fernandes Erik Jacobsen Jose R. Jacobsen Alf Wennevold	Albertslund, Denmark Simonsne & Weel Ltd. 1980	49	\$6.50
<i>The purpose of this book is to give a motivating, integrated plan of action for the treatment of cardiac arrest in the hospital setting, with a discussion of the correct procedure in both children and adults.</i>				
<b>The Quantitative Practice of Anesthesia: The Use of Closed Circuit</b>	Harry J. Lowe, M.D. Edward A. Ernst, M.D.	Baltimore, Maryland Williams & Wilkins 1980		
<i>This book is the first full treatment of the subject of closed circuit anesthesia with step-by-step coaching in what-it-is-about and how-to-do-it. It is an exhaustive treatise on the full spectrum of interactions between patient uptake and anesthetic circuit.</i>				
<b>Current Surgical Diagnosis &amp; Treatment 5th</b>	J. Englebert Dunphy Lawrence W. Way (Editors)	Los Altos, California Lange Medical Publications 1980	1,138	\$ 25.00
<i>The fifth edition of this surgical text makes available in concise form the basic information and the most recent developments in general surgery and each of the surgical specialties. Many of the chapters have been rewritten and substantial revisions have been made. It is appropriate for use by medical students, residents, and practicing surgeons and physicians.</i>				
<b>Surgical Treatment of Obesity</b>	Edward E. Mason, M.D.	Philadelphia, Pennsylvania W. B. Saunders 1980	493	\$ 35.00
<i>This comprehensive book describes the surgical treatment of obesity. Preoperative and postoperative management of this problem is well presented, making it of value to surgeons and physicians employing these methods of treatment for obese patients.</i>				
<b>Obstetric Anesthesia and Perinatology</b>	E. V. Cosmi, M.D., L.D.	New York, New York Appleton-Century-Crofts 1980	769	\$ 42.50
<i>In this book the major problems encountered in the field of obstetric analgesia and anesthesia are presented.</i>

		Address, Name, Year			
<b>Humidification of Anesthetic Gases</b>	Jack Chalon Mahgul Ali Herman Turndorf <i>et al.</i>	Springfield, Illinois Charles C Thomas 1980		138	\$ 17.50
<i>This five-section text can be primarily used as a teaching guide for anesthesiology residents and a reference book for practicing anesthesiologists. Utilizing state of the art discussions and summaries outlining the use of equipment now available, as well as descriptions of new systems, it should prove a valuable addition to the literature.</i>					
<b>Pharmacology for the Anesthesiologist</b>	Bijan K. Basak, M.D.	Westport, Connecticut Technomic Publishing Co. 1980		209	\$ 22.50
<i>This text provides an up-to-date guide to today's anesthetic drugs and their various interactions for use by anesthesiologists, nurse anesthetists, and medical personnel who would utilize this information.</i>
