

5th SIDO World Prize

It is with great pride that we acknowledge that the prestigious SIDO World Prize has been awarded to the authors of a paper recently published in *The Angle Orthodontist*. The award goes to Dr. Suwannee Luppanapornlarp and Dr. Lysle E. Johnston, Jr., for their article, "The effects of premolar extraction: A long-term comparison of outcomes in "clear-cut" extraction and nonextraction Class II patients." (*Angle Orthod*

1993;63(4):257-272.)

SIDO, Societa Italiana di Ortodonzia, searches all orthodontic publications over a two-year period, then awards the prize to the paper they select as the best. The paper will be translated into Italian and published in the journal *Ortognatodonzia Italiana* in 1996. Congratulations to two of our more deserving education and research enthusiasts.

1995 Edward H. Angle Research Prize

The 1995 Edward H. Angle Research Prize was awarded to Phillip M. Campbell, DDS, MSD, of Huntsville, Texas. Dr. Campbell accepted the prize September 17, 1995 at the 31st Biennial Meeting of the Edward H.

Angle Society of Orthodontists in Aspen, Colorado.

Dr. Campbell's article, "Enamel surfaces after orthodontic bracket debonding," appeared in *The Angle Orthodontist* in 1995, volume 65, issue number 2.

Angle members whose work is published in *The Angle Orthodontist* are eligible for the prize, which is awarded every other year in conjunction with the biennial meeting.
