

Subject Index

- Addiction, non-drug addictions following focal brain injury
 - Gastaut-Geschwind syndrome 66, 67
 - gourmand syndrome 64
 - hypergraphia 67
 - hyperphagia 63
 - kleptomania 65
 - Klüver-Bucy syndrome 64
 - hyper-religiosity 67, 68
 - overview 61, 62
- Alzheimer's disease, hypersexuality 73, 74
- Anosognosia, right hemisphere stroke 9, 10
- Apotemnophilia 14, 15, 19

- Blepharospasm-plus syndrome, *see* Brueghel syndrome; Meige syndrome; Segmental craniocervical dystonia
- Botulinum toxin, segmental craniocervical dystonia management 102
- Brueghel syndrome
 - diagnosis 101, 102
 - epidemiology 100
 - history of study 98–100
 - management 102
 - pathogenesis 101

- CA, *see* Constructional apraxia
- Capgrass syndrome, right hemisphere stroke 10, 34
- Carbamazepine, Klüver-Bucy syndrome management 86
- Catastrophic reaction (CR)
 - diagnosis 55, 56
 - epidemiology 52, 53
 - history of study 50, 51
 - management 57
 - pathogenesis 53, 54
 - prospects for study 57, 58
- CBS, *see* Charles Bonnet syndrome
- Charles Bonnet syndrome (CBS)
 - autoscopic phenomena 120, 121
 - diagnosis 119
 - epidemiology 118, 119
 - hallucination content 119, 120
 - history of study 117, 118
 - management 122
 - pathogenesis 121, 122
 - prospects for study 122, 123
- Clonazepam, rapid eye movement sleep behavior disorder management 112, 113
- Constructional apraxia (CA), right hemisphere stroke 5
- CR, *see* Catastrophic reaction
- Crying, *see* Pathological laughing and crying

- DA, *see* Dressing apraxia
- Deep brain stimulation, segmental craniocervical dystonia management 102
- Diogenes syndrome (DS)
 - clinical features 90, 91
 - diagnosis 93, 94
 - epidemiology 91, 92
 - history of study 90, 91
 - management 95
 - pathogenesis 92, 93
 - prospects for study 95, 96
- Doppelgänger syndrome 121
- Dressing apraxia (DA), right hemisphere stroke 5, 6
- DS, *see* Diogenes syndrome
- Dyspepsia, yawning 42
- Dysprosody, right hemisphere stroke 9

- Echo phenomena
 - auditory symptoms 31
 - cognitive endogenous modalities 33, 34
 - delusional misidentification syndromes 34
 - flashbulb memories 34
 - management 36
 - motor perseveration 33
 - overview 28
 - pathogenesis 35, 36
 - productive modalities 32
 - sensitive perception 31, 32
 - variants 30, 31
 - verbal modalities 32, 33
 - visual symptoms 29, 30
- Emotionalism, *see also* Pathological laughing and crying
 - classification 52
 - diagnosis 56, 57
 - epidemiology 53
 - history of study 51, 52
 - management 57
 - pathogenesis 54, 55
 - prospects for study 57, 58
- Eponymous syndrome 32
- Epworth Sleepiness Scale (ESS) 108
- ESS, *see* Epworth Sleepiness Scale

- Flashbulb memories 34
- Fregoli syndrome 10, 34

- Gastaut-Geschwind syndrome (GGS), following focal brain injury 66, 67
- GGS, *see* Gastaut-Geschwind syndrome
- Gourmand syndrome (GS), following focal brain injury 64
- GS, *see* Gourmand syndrome

- Hallucination, *see* Charles Bonnet syndrome
- HG, *see* Hypergraphia
- Hyper-religiosity, following focal brain injury 67, 68
- Hypergraphia (HG)
 - following focal brain injury 67
 - right hemisphere stroke 6
- Hyperphagia, following focal brain injury 63
- Hypersexuality
 - brain lesion induction 71, 72
 - dementia patients 73, 74
 - Kleine Levin syndrome 72, 73
 - Klüver-Bucy syndrome 73
- Parkinson's disease 74, 75
- temporal lobe epilepsy 73

- KBS, *see* Klüver-Bucy syndrome
- Kleine Levin syndrome, hypersexuality 72, 73
- Kleptomania, following focal brain injury 65
- Klüver-Bucy syndrome (KBS)
 - diagnosis 84–86
 - following focal brain injury 64
 - history of study 77–82
 - hypersexuality 73
 - management 86, 87
 - pathogenesis 82–84
 - prospects for study 87

- Laughing, *see* Pathological laughing and crying
- Leuprolide, Klüver-Bucy syndrome
 - management 86

- MAACL-R, *see* Multiple Affect Adjective Checklist-Revised
- Mania, right hemisphere stroke 10, 11
- Meige syndrome
 - diagnosis 101, 102
 - epidemiology 100
 - history of study 98–100
 - management 102
 - pathogenesis 101
- Melatonin, rapid eye movement sleep behavior disorder management 113
- Migraine, yawning as warning sign 43
- Mirror therapy, phantom limb pain 18
- Misoplegia
 - diagnosis 25
 - history of study 23, 24
 - management 26, 27
 - pathogenesis 24, 25
- Multiple Affect Adjective Checklist-Revised (MAACL-R) 56

- Obsessive-compulsive disorder (OCD), following focal brain injury
 - overview 62
 - symptoms 62, 63
- OCD, *see* Obsessive-compulsive disorder

- PA, *see* Prosopagnosia
- Pali
 - auditory symptoms 31
 - cognitive endogenous modalities 33, 34
 - delusional misidentification syndromes 34

- flashbulb memories 34
- management 36
- motor perseveration 33
- overview 28
- pathogenesis 35, 36
- productive modalities 32
- sensitive perception 31, 32
- variants 30, 31
- verbal modalities 32, 33
- visual symptoms 29, 30
- Parkinson's disease, hypersexuality 74, 75
- Pathological laughing and crying (PLC), *see also* Emotionalism
 - associated diseases 47, 48
 - history of study 44, 45
 - overview 44
 - pathophysiology 45–47
 - terminology 44
 - treatment 48
- Phantom limb
 - clinical manifestations 15, 16
 - epidemiology 16
 - history of study 16
 - management 17, 18, 20
 - overview 14, 15
 - pathogenesis 17
 - supernumerary phantom limb 18, 19
- PLC, *see* Pathological laughing and crying
- Prosopagnosia (PA), right hemisphere stroke 7, 8
- Pseudobulbar syndrome 44, 45
- Quetiapine, Diogenes syndrome management 95
- Rapid eye movement sleep behavior disorder (RBD)
 - clinical features
 - autonomic dysfunction 109
 - dream content 108
 - excessive daytime sleepiness 108
 - neuropsychological profile 109
 - nocturnal behavior 107, 108
 - diagnosis 110, 111
 - differential diagnosis 111, 112
 - epidemiology 105, 106
 - etiology 110
 - history of study 105
 - management 112, 113
 - pathophysiology 109, 110
 - prospects for study 113, 114
 - risk factors 110
- RBD, *see* Rapid eye movement sleep behavior disorder
- Right hemisphere stroke syndromes
 - anosognosia 9, 10
 - constructional apraxia 5
 - dressings apraxia 5, 6
 - dysprosody 9
 - hypergraphia 6
 - mania 10, 11
 - misidentification syndromes 10
 - overview 1, 2
 - prosopagnosia 7, 8
 - prospects for study 10
 - topographical disorientation 8
 - unilateral spatial neglect 2–5
 - visual agnosia 6, 7
- Risperidone, Diogenes syndrome management 95
- Segmental craniocervical dystonia history of study 98–100
 - diagnosis 101, 102
 - epidemiology 100
 - management 102
 - pathogenesis 101
- TD, *see* Topographical disorientation
- Temporal lobe epilepsy (TLE), hypersexuality 73
- TLE, *see* Temporal lobe epilepsy
- Topographical disorientation (TD), right hemisphere stroke 8
- Unilateral spatial neglect (USN), right hemisphere stroke 2–5
- USN, *see* Unilateral spatial neglect
- VA, *see* Visual agnosia
- Valproic acid, Diogenes syndrome management 95
- Visual agnosia (VA), right hemisphere stroke 6, 7
- Yawning, pathological
 - functional pathological yawning 42
 - history of study 41
 - organic pathological yawning 43
 - overview 40, 41
