

SUSTAINING MEMBERS

Sustaining members of the Wildlife Disease Association are members having particular interest in the objectives of the Association and who wish to make a significant contribution as determined by Council to support those objectives.

The Wildlife Disease Association is pleased to recognize the following sustaining member:

WILDLIFE CONSERVATION SOCIETY (WCS)

185th Street and Southern Boulevard
Bronx, New York 10460 USA

The WCS has been a sustaining member since 2000 and through a generous contribution of \$5,500/annum supports the electronic distribution of the *Journal of Wildlife Diseases* to more than 110 countries where current economic difficulties would limit *Journal* access and availability.
