Boost Your Optics and Photonics Measurements

Lock-in Amplifier

Zurich Instruments

Find out more

Boxcar Averager

The advertisement features two Zurich Instruments devices: a Lock-in Amplifier on the left and a Boxcar Averager on the right. The Lock-in Amplifier is shown with a blue sine wave and a pink square wave overlaid on its front panel. The Boxcar Averager is shown with a blue square wave and a pink square wave overlaid on its front panel. The Zurich Instruments logo, consisting of a stylized 'X' and the text 'Zurich Instruments', is positioned between the two devices. A blue button with the text 'Find out more' is located below the logo. The text 'Boost Your Optics and Photonics Measurements' is at the top right, and the device names 'Lock-in Amplifier' and 'Boxcar Averager' are at the bottom left and right respectively.

Preface: Regional Conference Graz 2015

Polymer Processing Society PPS

We are happy and proud that finally the reviewing and editing process is finished and we can now present 136 full papers out of the more than 300 oral presentations of the Regional Conference of the Polymer Processing Society PPS in Graz 2015, which took place from September, 21st – 25th 2015.

This Regional Conference was so far the most successful with more than 400 participants from 32 countries. It took place in a very creative and attentive atmosphere with great presentations and vivid discussions. In the 7 parallel sessions scientists and representatives from industry used the conference as a platform to discuss future developments in fields like nanocomposites, foams, textiles, additive manufacturing or materials for medicine. We got an excellent feedback from the participants, who also enjoyed the Austrian hospitality and the beautiful city of Graz.

We thank the authors for their contributions and the peer-reviews for their thorough reviewing. In our editorial process we eliminated many typographical errors and prepared the papers for the AIP.

Our special thanks go to Dr. Vito Speranza, who is the mastermind behind the administration software and who was helping indefatigably with all our questions and problem.

We hope that the proceedings will be a source for further fruitful discussion and scientific work!

Prof.Dr. Clemens Holzer

Editor of PPS Proceedings, Regional Conference Graz 2015
