In Ref. 1, the integration limits appearing in Eqs. (86)–(90) should read as $-\infty$ and ∞ , i.e., $\int_{-\infty}^{\infty}$ instead of \int_{∞}^{∞} . Also, Eq. (90) therein is corrected as

$$\tau_0^{-1} = \frac{3}{4} \Gamma \sqrt{\frac{B}{3A}} \phi_{00}^{3/2} \mathcal{P} \int_{-\infty}^{\infty} \int_{-\infty}^{\infty} \operatorname{sech}^2 z \frac{\partial}{\partial z'} (\operatorname{sech}^4 z') \frac{dz dz'}{z - z'} \approx 2 \Gamma \sqrt{\frac{B}{3A}} \phi_{00}^{3/2}.$$
