

Real-Time PCR Detection and Identification of Prohibited Mammalian and Avian Material in Animal Feeds
 Saira Cawthraw, Ginny C. Saunders, Trevor C. Martin, Jason Sawyer, Otto Windl, and Scott D. Reaney* 1055

Novel Approach for Detecting Prohibited Species-Specific Central Nervous System Tissue Contamination in Meat by One-Step Real-Time Reverse Transcriptase PCR M. M. Nagarajan,* D. Longtin, and C. Simard 1063

Suitability of Antigens PGP 9.5 and Neurofilament Light as Marker Proteins for Detection of Neuronal Tissue in Processed Meat Products Christine Gaunitz, Jörg Gabert, Ernst Lücker, Johannes Seeger, and Tobias Stahl* 1070

Research Notes

Specificity Analysis of a Novel Phage-Derived Ligand in an Enzyme-Linked Fluorescent Assay for the Detection of *Escherichia coli* O157:H7 Christine Rozand and Peter C. H. Feng* 1078

Detection of Multiple-Antimicrobial Resistance and Characterization of the Implicated Genes in *Escherichia coli* Isolates from Foods of Animal Origin in Tunisia Ahlem Jouini, Karim Ben Slama, Yolanda Sáenz, Naouel Klibi, Daniela Costa, Laura Vinué, Myriam Zarazaga, Abdellatif Boudabous, and Carmen Torres* 1082

Antimicrobial Resistance Genes in *Escherichia coli* Isolates Recovered from a Commercial Beef Processing Plant Mueen Aslam,* Moussa S. Diarra, Cara Service, and Heidi Rempel 1089

An Outbreak of *Salmonella enterica* Serotype Litchfield Infection in Australia Linked to Consumption of Contaminated Papaya Robyn Gibbs,* Nevada Pingault, Terry Mazzucchelli, Lyn O'Reilly, Brian MacKenzie, Jennifer Green, Ray Mogyorosy, Russell Stafford, Robert Bell, Lester Hiley, Kathleen Fullerton, and Paul Van Buynder 1094

Enumeration of *Campylobacter* spp., *Escherichia coli*, and *Salmonella* in Broiler Carcass Rinses before and after Simulated Transport in Artificial Ice for 24 Hours Norman J. Stern and J. Eric Line* 1099

Prevalence of *Arcobacter* in Meat and Shellfish Luis Collado, Josep Guarro, and Maria José Figueras* 1102

Inhibitory Effect of Commercial Green Tea and Rosemary Leaf Powders on the Growth of Foodborne Pathogens in Laboratory Media and Oriental-Style Rice Cakes Sun-Young Lee, So-Young Gwon, Seung-Ju Kim, and Bo Kyung Moon* 1107

Histamine Levels in Fish from Markets in Lima, Perú Victor E. Gonzaga,* Andres G. Lescano, Alfredo A. Huamán, Gabriela Salmón-Mulanovich, and David L. Blazes 1112

Intake of Essential Minerals and Metals via Consumption of Seafood from the Mediterranean Sea M. M. Storelli* 1116

Review

Stress, Sublethal Injury, Resuscitation, and Virulence of Bacterial Foodborne Pathogens Alissa M. Wesche, Joshua B. Gurtler, Bradley P. Marks, and Elliot T. Ryser* 1121

ERRATA

In the article “*Enterobacter sakazakii* in Dried Infant Formulas and Milk Kitchens of Maternity Wards in São Paulo, Brazil” by Palcich et al., *Journal of Food Protection* 72(1):37–42, the correct MPN value is <0.3, not <0.03 as published in the Abstract and the Results and Discussion.

A corrected Figure 2 for the article “Temporal Patterns and Risk Factors for *Escherichia coli* O157 and *Campylobacter* spp. in Young Cattle” by Ellis-Iversen et al., *Journal of Food Protection* 72(3):490–496, appears here.
