In the originally published article,¹ an important reference was inadvertently omitted from the final version of the paper. The missing reference is as follows: D. A. Kaltsas and G. N. Throumoulopoulos, “Neural network tokamak equilibria with incompressible flows,” Phys. Plasmas 29(2), 022506 (2022). <https://doi.org/10.1063/5.0073033>. This prior work offers readers relevant background to our work’s context and development with

the resurgence of interest in neural network surrogates for MHD equilibria.
