

Editorial Announcement

Since the inception of our Journal, Professor Peter Goodwin has served as Editor for North America and has been instrumental in raising interests in hydroinformatics and correspondingly attracting papers in the North American region. He has for some time expressed the wish to step down from this demanding and time-consuming work and we have been seeking an editor who could replace him in North America. We believe that we have now found an excellent replacement in Dr Jeffery P. Holland, Director of the Information Technology Laboratory of the US Army Engineer Research and Development Center, which is the leading laboratory for information

technology in the US Department of Defense. Most of the work of the laboratory is directed to civil works within the USA, which have fallen under the supervision of the Army since the nineteenth century.

We, his fellow editors, wish to thank Professor Peter Goodwin for his excellent work, often performed under difficult conditions. We also wish to welcome Dr Holland 'on board' as a fellow editor.

Michael B Abbott, on behalf of the Editorial Board,
Journal of Hydroinformatics
