FOREWORD

The papers and discussions in the Symposium on Coal Sampling were presented at the Second and Fifth Sessions of the Fifty-seventh Annual Meeting of the Society held on June 14, 1954, in Chicago, Ill. This symposium was sponsored by Committee D-5 on Coal and Coke, W. W. Anderson, Technical Director, Commercial Testing and Engineering Co., Chicago, Ill., chairman. The symposium was developed by a Symposium Committee under the chairmanship of W. M. Bertholf, Coal Preparation Engineer, Colorado Fuel and Iron Corp., Pueblo, Colo.

Mr. H. F. Hebley, Director of Research, Pittsburgh Consolidated Coal Co., Pittsburgh, Pa., and Mr. W. W. Anderson acted as co-chairmen for the Second Session, while Mr. A. C. Fieldner, Past-President of ASTM and Chief Fuels Technologist, U. S. Bureau of Mines, Washington, D. C., and Mr. W. M. Bertholf presided over the Fifth Session.

**NOTE.—The Society is not responsible, as a body, for the statements
and opinions advanced in this publication.**

THIS PUBLICATION is one of many issued by the American Society for Testing Materials in connection with its work of promoting knowledge of the properties of materials and developing standard specifications and tests for materials. Over the years the Society has published many technical symposiums, reports, and special books. These may consist of a series of technical papers, reports by the A.S.T.M. technical committees, or compilations of data developed in special Society groups with many organizations co-operating. A list of A.S.T.M. publications and information on the work of the Society will be furnished on request.
