Low-Calorie Sweeteners and Weight Control: What the Science Tells Us

Presented at the conference, “Low-Calorie Sweeteners, Appetite and Weight Control: What the Science Tells Us,” held in Washington, DC, April 7–8, 2011

Supplement Coordinators

Adam Drewnowski
University of Washington

Supplement Guest Editor

Sibylle Kranz
Purdue University

Published in a supplement to The Journal of Nutrition. Presented at the conference Low-Calorie Sweeteners, Appetite and Weight Control: What the Science Tells Us, held in Washington, DC, April 7–8, 2011. The conference was sponsored by the Committee on Low-calorie Sweeteners of the International Life Sciences Institute North America. The views expressed in these papers are not necessarily those of the supplement coordinator or guest editors. The Supplement Coordinator for this supplement was Adam Drewnowski, University of Washington. Supplement Coordinator disclosures: Adam Drewnowski received travel reimbursement for participation in the Low-Calorie Sweeteners Conference. The supplement is the responsibility of the Guest Editor to whom the Editor of The Journal of Nutrition has delegated supervision of both technical conformity to the published regulations of The Journal of Nutrition and general oversight of the scientific merit of each article. The Guest Editor for this supplement was Sibylle Kranz. Guest Editor disclosure: Sibylle Kranz has received funding from The Kellogg Company to conduct research projects unrelated to this supplement material. She has also been an invited speaker at a roundtable discussion funded by The Kellogg Company. Publication costs for this supplement were defrayed in part by the payment of page charges. This publication must therefore be hereby marked “advertisement” in accordance with 18 USC section 1734 solely to indicate this fact. The opinions expressed in this publication are those of the authors and are not attributable to the sponsors or the publisher, Editor, or Editorial Board of The Journal of Nutrition.
Contents

Low-Calorie Sweeteners and Weight Control: What the Science Tells Us

Introduction to the Workshop
John D. Fernstrom and Juan L. Navia 1132S

Mechanisms for Sweetness
John D. Fernstrom, Steven D. Munger, Anthony Sclafani, Ivan E. de Araujo, Ashley Roberts, and Samuel Molinary 1134S

Sweetness and Food Preference
Adam Drewnowski, Julie A. Mennella, Susan L. Johnson, and France Bellisle 1142S

Sweetness, Satiation, and Satiety
France Bellisle, Adam Drewnowski, G. Harvey Anderson, Margriet Westerterp-Plantenga, and Corby K. Martin 1149S

The Use of Low-Calorie Sweeteners by Children: Implications for Weight Management
John Foreyt, Ronald Kleinman, Rebecca J. Brown, and Rachel Lindstrom 1155S

The Use of Low-Calorie Sweeteners by Adults: Impact on Weight Management
G. Harvey Anderson, John Foreyt, Madeleine Sigman-Grant, and David B. Allison 1163S

Workshop Summary
John D. Fernstrom and Juan L. Navia 1170S
