

Erratum: “Elastic Anisotropy of Human Cortical Bone Secondary Osteons Measured by Nanoindentation”

[Journal of Biomechanical Engineering, 2009, 131(2), p. 021001]

Giampaolo Franzoso and Philippe K. Zysset

There was an error in the original version of Fig. 9. Figure 9 has been corrected and is reprinted here.

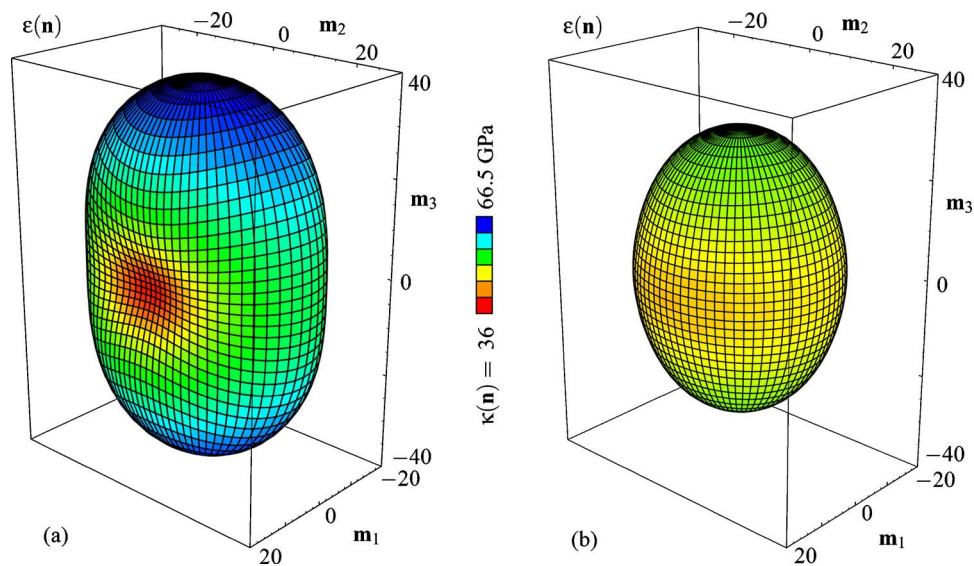

Fig. 9 Three-dimensional representation of the elongation modulus $\varepsilon(\mathbf{n})$ in function of a direction vector \mathbf{n} with the bulk modulus $\kappa(\mathbf{n})$ superimposed: the shape of the surfaces represents ε , while the color represents κ . (a) Mean osteon in cortical bone tissue measured by means of nanoindentation. (b) Cortical bone at the macroscopic level. Units are in [GPa].
