[DOI: [10.1063/1.3153959](https://doi.org/10.1063/1.3153959)]

The solid lines in the Fig. 4 of the original file are incorrect. The corrected figure is shown below. In addition, on the right column, line 5 of Table I, the correct value of  $C_{gb}$  is  $30 \pm 0.1$  nF instead of  $11.7 \pm 0.9$  nF. These corrections affect no other part of the article.

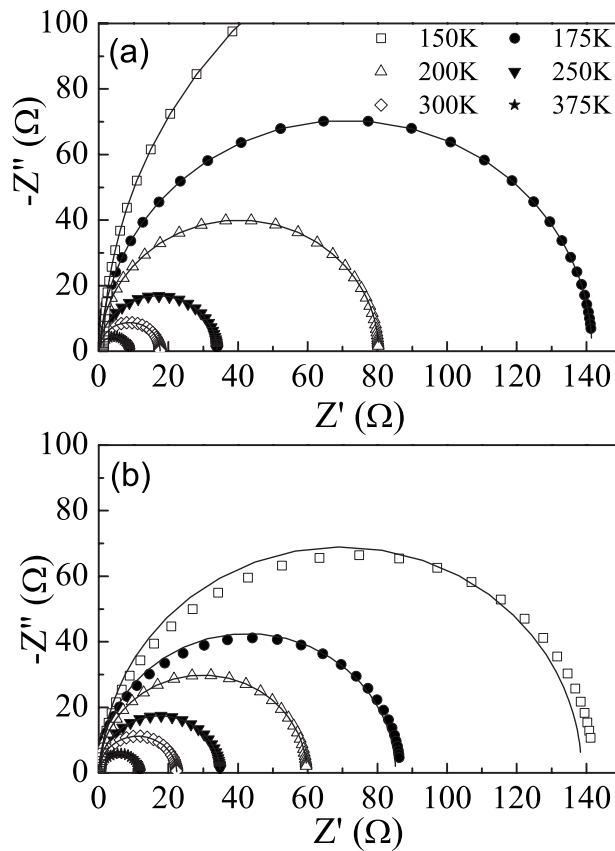

FIG. 4.  $Z^*$  plots for (a)  $\text{La}_{1.5}\text{Sr}_{0.5}\text{NiO}_4$  and (b)  $\text{Nd}_{1.5}\text{Sr}_{0.5}\text{NiO}_4$  ceramics at various temperatures. The solid lines are fitting by equivalent circuits as shown in text.
