**ADA EVENTS**

**FUTURE MEETINGS**

50th Annual Meeting: 14–19 June 1990, Atlanta, Georgia.  
 51st Annual Meeting: 21–28 June 1991, Washington Convention Center, Washington, DC.

**CLINICAL EDUCATION PROGRAM (CEP)**

Funded by an educational grant from The Upjohn Company, ADA's new Clinical Education Program (CEP) "Managing Diabetes in the 1990s" focuses on helping physicians gain a better understanding of how to manage the diabetic patient, including treatments that may delay or avoid diabetic complications. The 3.5-hour seminars are specifically designed for primary-care physicians. Attendees will receive Continuing Medical Education credits. ADA affiliates will conduct approximately 100 CEP seminars during the coming year. The following CEP programs have been scheduled.

- ADA Missouri Affiliate—1 June 1990, Columbia.
- ADA Downstate New York Affiliate—6 June 1990, Valhalla.
- ADA New Hampshire Affiliate—6 June 1990, Manchester.
- ADA Vermont Affiliate—7 June 1990, Burlington.
- ADA Kansas Affiliate—8 June 1990, Wichita.
- ADA Florida Affiliate—15 June 1990, Marco Island.
- ADA Western Pennsylvania Affiliate—15 June 1990, Pittsburgh.
- ADA Kansas Affiliate—16 June 1990, Wichita.

- ADA Missouri Affiliate—16 June 1990, Lake Ozark.
- ADA Maine Affiliate—29 June 1990, Waterville.
- ADA California Affiliate—30 June 1990, San Diego.
- ADA New Mexico Affiliate—16 July 1990, Ruidoso.
- ADA Michigan Affiliate—23 July 1990, Traverse City.
- ADA Virginia Affiliate—27 July 1990, Virginia Beach.
- ADA Louisiana Affiliate—30 July 1990, Destin, FL.
- ADA North Dakota Affiliate—11 August 1990, Minot.
- ADA Missouri Affiliate—25 August 1990, Lake Ozark.

For more information contact your local ADA Affiliate or Dr. Michael Stolar, Director of Health Sciences, ADA National Service Center, 1660 Duke Street, Alexandria, VA 22314. Tel.: (703) 549-1500, ext. 360; or 1-800-232-3472, ext. 360.

**15TH ANNUAL PROFESSIONAL SYMPOSIUM FOR PHYSICIANS AND HEALTH-CARE PROFESSIONALS**

The ADA North Dakota Affiliate will hold its 15th annual professional symposium for physicians and other health-care professionals entitled "The Highs and Lows of Diabetes" 26 October 1990 in Grand Forks, North Dakota. The program will feature speakers and in-state diabetes experts. For more information, contact Mary Ann Keller, RN, MS, CDE, Executive Director, ADA ND Affiliate, Inc., P.O. Box 234, Grand Forks, ND 58206. Tel.: (701) 746-4427.

**MULTIDISCIPLINARY SYMPOSIUM ON DIABETIC FOOT**

The University of Texas Health Science Center at San Antonio and the ADA Texas Affiliate are cosponsoring a symposium on the diabetic foot 8–9 December 1990 at the Hyatt Regency on the River, San Antonio, Texas. The symposium will take a multidisciplinary approach and will focus on practical treatment of the diabetic foot and foot-care research trends. For more information, contact Susan Duncan, Continuing Education Department, The University of Texas Health Science Center at San Antonio, 7703 Floyd Curl Drive, San Antonio, TX 78284. Tel.: (512) 567-4444.

**OTHER EVENTS**

**14TH IDF CONGRESS**

The International Diabetes Federation will hold its 14th Congress 23–28 June 1991 at the Washington Convention Center in Washington, DC. The program will include scientific and clinical sessions covering such topics as clinical care, health-care delivery, education, public awareness, fund raising and volunteerism, association management, government and association relations, and youth services. Preliminary registra-

tion forms are available. For more information, write to Linda Cann, American Diabetes Association, 1660 Duke Street, Alexandria, VA 22314. Tel.: (703) 549-1500, ext. 281; or 1-800-232-3472, ext. 281.

### SWEDISH DIABETIC MACROANGIOPATHY CONFERENCE

The Swedish Society for Diabetology and the Swedish Society for Angiology are cosponsoring the conference "Diabetic Macroangiopathy" 14-16 June 1990 in Mora, Sweden. The conference will include lectures on the pathogenesis, clinical findings, and prevention of diabetic macroangiopathy and poster sessions. The official language of the conference will be English. For more information, contact Carl-David Agardh, MD, Department of Internal Medicine, University Hospital, S-221 85 Lund, Sweden. Tel.: +(46-46) 17-10-00; Fax: +(46-46) 15-14-80. Or contact the Symposium Secretariat, Congrex, P.O. Box 5619, S-114 86 Stockholm, Sweden. Tel.: (46-8) 612-69-00; Fax: +(46-8) 612-62-92; Telex: 16949 Krecon S.

### IMPLANTABLE INSULIN DELIVERY DEVICES

The 6th meeting of the International Study Group on Diabetes Treatment With Implantable Insulin Delivery Devices will be held 21-24 June 1990 in Nice, France, during the 4th Delivery System Cardiostim symposium. For more information, contact Dr. Jean-Louis Selam, ISGIID Secretary General, UCI Diabetes Center, 12555 Garden Grove Boulevard, Suite 206, Garden Grove, CA 92643.

### 2ND EUROPEAN CONGRESS OF ENDOCRINOLOGY

The 2nd European Congress of Endocrinology will be held 1-6 July 1990 in Ljubljana, Yugoslavia. A manufacturers' exhibition of pharmaceutical and biomedical products will be featured at the congress. For more information, contact the 2nd European Congress of Endocrinology, Secretariat, Kompas Jugoslavija, Congress Department, Prazakova 4. YU-61000 Ljubljana, Yugoslavia. Tel.: 3861 319-445. Telex: 31209 kompas. Telefax: 3861 319888.

### AMSTERDAM 1990 INTERNATIONAL UNION OF PHARMACOLOGY CONFERENCE

The International Union of Pharmacology will hold its 1990 satellite meeting entitled "Pathophysiology and Treatment of Diabetes Mellitus" 8-11 July 1990 in Montpellier, France. Topics will include molecular mechanisms and therapeutic approaches to insulin resistance, hypertension and diabetes, insulin-receptor phosphatases, vanadium and diabetes, diabetes and the heart, and new aspects of insulin therapy. Poster sessions will be organized. For more information, contact Dr. Gérard Cros, Laboratoire de Pharmacodynamie, Faculté de Pharmacie, 34060 Montpellier-Cedex, France. Tel.: (33) 67-63-55-25.

### THROMBOEMBOLIC DISORDERS IN DIABETES MELLITUS

The International Congress on Fibrinolysis will present its Chicago Satellite Symposium on "Thromboembolic Disorders in

Diabetes Mellitus: Risk Factors and Pathogenesis" 3 August 1990 in Chicago, IL. The symposium will be an open forum involving some of the key issues in the pathophysiology and treatment of diabetes, including new information on and therapy for fibrinolytic system impairment in diabetes, with reference to PAI and T-PA regulation. For more information, contact Dr. H. Kwaan, VA Lakeside Hospital, 333 E. Huron, Room 804, Chicago, IL 60611. Tel.: 312-664-4718.

### IV INTERNATIONAL SYMPOSIUM ON INSULIN RECEPTOR AND INSULIN ACTION

The "IV International Symposium on Insulin Receptor and Insulin Action" will be held 4-7 September 1990 in Verona, Italy. The symposium will include international experts on insulin and related growth factors discussing the molecular aspects of diabetes, obesity, and insulin resistance and clinical problems and therapy. For more information, contact Prof. M. Muggeo, Malattie del Metabolismo, Ospedale Policlinico I, 37134 Verona, Italy. Tel.: 39-45-933403.

### 16TH MEETING OF INTERNATIONAL STUDY GROUP OF DIABETES IN CHILDREN AND ADOLESCENTS

The International Study Group of Diabetes in Children and Adolescents will hold its 16th annual meeting 6-9 September 1990 in Oslo, Norway. The two main topics will be microalbuminuria and secondary diabetes (diabetes in cystic fibrosis, ataxias, etc.). The deadline for registration is 15 June 1990. For more information, contact Prof. O. Aagenæs, Pediatric Department, Aker University Hospital, 0514 Oslo 5, Norway. Tel.: 47-2-225050; Fax 47-2-711564.

### WHITHER COMPUTERS IN DIABETES CARE?

The European Association for the Study of Diabetes '90 will hold an international symposium, "Whither Computers in Diabetes Care?: Diabetes Optimized Care Through Information Technology," 7-8 September 1990 in Köge, Denmark. Presentations will include lectures, tutorials, round table discussions, posters, and program demonstrations on topics on the use of computers in documentation and medical records, knowledge-based systems, implementation of computers into the clinical environment, and the impact of computers on diabetes care. For more information, contact Dr. R. Bauersachs or Dr. K. Piwernetz, Diabetes Center Bogenhausen, Hospital Munich Bogenhausen, Engelschalkinger Str. 77, D-800 Munich 81, F.R.G. Tel.: 49-89-9270-2510; Fax 49-89-9270-2509.

### 3RD CONGRESS ON TRACE ELEMENTS IN MEDICINE AND BIOLOGY

The French Society for Study and Research on Essential Trace Elements will hold its Third Congress on Trace Elements in Medicine and Biology on 15-18 January 1991 at Les Deux Alpes, France. The program will focus on chromium, which will include discussions on chromium in diet and chromium in diabetes, and trace elements, which will include a discussion on zinc and glucose tolerance. For more information, contact Richard Zawislak, Laboratoire d'Analyses, Institut de Chimie Biologique, 11 Rue Humann, 67085 Strasbourg Cedex, France.

**ADA GRANTS AND AWARDS****FEASIBILITY GRANTS**

These grants provide up to \$40,000/yr for 2 yr for new and innovative diabetes research. The funds are to be used for equipment, supplies, and salary for technical assistance. Established diabetes investigators must propose marked departures from current research. Investigators in other fields are encouraged to apply their expertise to diabetes research. Applicants must be U.S. citizens or permanent residents and be members of U.S. university-affiliated institutions or equivalent within the U.S. or U.S. possessions. Application deadlines are 3 August 1990 and 1 February 1991 for funding beginning 1 January 1991 and 1 July 1991, respectively.

**RESEARCH AND DEVELOPMENT AWARDS**

These awards provide a maximum of \$65,000/yr for 3 yr to support young investigators with 2–5 yr of postdoctoral research experience. The funds support an investigator's salary and research program and enable the investigator to initiate an independent research effort that will lead to future long-term research funding. Applicants must be U.S. citizens or permanent residents and hold independent faculty positions at U.S. university-affiliated institutions within the U.S. and U.S. possessions. Application deadlines are 3 August 1990 and 1 February 1991 for funding beginning 1 January 1991 and 1 July 1991, respectively.

**MEDICAL STUDENT RESEARCH FELLOWSHIP PROGRAM**

These awards provide \$25,000/yr for 5 yr to accredited U.S. medical schools to support training of medical students. Selected students must be U.S. citizens or permanent residents in good standing who have completed at least 1 yr of medical school. Application deadline is 14 September 1990 for 1 January 1991 funding.

**MENTOR-BASED POSTDOCTORAL FELLOWSHIP PROGRAM**

These awards, in the amount of \$30,000/yr for 3 yr, are given to support a postdoctoral fellow working with an established diabetes investigator. The investigator must be a U.S. citizen or permanent resident and hold an appointment at a U.S. research institution. The fellow must have an MD or PhD degree, no more than 3 yr of postdoctoral research experience, and cannot serve an internship or residency during the award period. Application deadline is 12 October 1990 for 1 July 1991 funding.

**LIONS CLUB INTERNATIONAL CLINICAL RESEARCH PROGRAM IN DIABETIC EYE DISEASE**

This program supports clinical or applied research in diabetic retinopathy in the U.S. and abroad. Awards up to \$40,000/yr for 2 yr will be given to support new treatment regimens, epidemiology, and translation research. In addition, funds will be provided to support the training of foreign investigators in U.S. research institutions, to enable U.S. investigators to conduct training programs in foreign institutions, and to provide equipment for clinical research in diabetic retinopathy. Application deadline is 1 February 1991 for 1 July 1991 funding.

**CLINICAL RESEARCH GRANT PROGRAM**

Grants of up to \$50,000/yr are provided for 3 yr for studies that directly involve humans. In vitro research on human blood or tissue samples to measure effects of environmentally induced (e.g., diet, drugs) changes qualifies as clinical research under this program; simply using human tissues for laboratory research does not qualify. The funds may be used for equipment, supplies, and/or salary (excluding principal investigator's salary). Applicants must be U.S. citizens or permanent residents and hold faculty-level appointments at U.S. university-affiliated institutions. Application deadline is 1 February 1991 for 1 July 1991 funding. Application forms for all programs are available from the American Diabetes Association National Service Center, Division of Scientific and Medical Affairs, 1660 Duke Street, Alexandria, VA 22314. Tel.: (703) 549-1500; or 1-800-232-3472.
