CLINICAL AND HEMATOLOGY WORKSHOP

University of Washington, Seattle, Washington

September 15–17

CLINICAL AND HEMATOLOGY WORKSHOP. THEORY AND METHODS

Erythrokinetics, Hemoglobinopathies, Metabolic and Isotopic Technics

Staff: Dr. Arno G. Motulsky, Dr. Robert S. Evans, Dr. Victor Herbert, Dr. Lester D. Ellerbrook, Dr. Floise R. Giblett, Dr. Clement A. Finch, and others.

AMERICAN SOCIETY OF HEMATOLOGY MEETING

NOVEMBER 28–30, 1960

MONTREAL, CANADA

The American Society of Hematology will meet in Montreal, Canada, at the Queen Elizabeth Hotel from Monday, November 28, at 2:00 p.m. until Wednesday, November 30, at 1:00 p.m.

Two symposia will be held, one of which will be:

Symposium on Current Biochemical and Genetical Concepts of Thalassemia

Monday afternoon, November 28

Chairman: Park S. Gerald

- | | | |
|---------|------|---|
| 5 min. | I | Chairman's Introduction: "What is Thalassemia?" |
| 30 min. | II | Structure of human hemoglobins. Theoretical bases of thalassemia syndromes. Vernon M. Ingram, Cambridge, Mass. |
| 15 min. | III | Interacting and noninteracting thalassemia. The persistent fetal hemoglobin syndrome. Wolf Zuelzer, Detroit, Mich. |
| 15 min. | IV | Hgb H disease, Bart's hemoglobin, and thalassemia. Park S. Gerald, Boston, Mass. |
| 5 min. | | Intermission. |
| 20 min. | V | The structure of Hgb A ₂ and its bearing on the thalassemia syndromes. Antony O. W. Stretton, Cambridge, Mass. |
| 20 min. | VI | Chemical studies of the Hgb S-Hgb G-Thalassemia family. The problem of minor hemoglobin components. Robert L. Hill, Salt Lake City, Utah. |
| 20 min. | VII | Critical evaluation of current concepts of thalassemia. James B. Neel, Ann Arbor, Mich. |
| 20 min. | VIII | Panel discussion, with audience participation. |

General scientific sessions will be held on Tuesday morning, Wednesday morning, and possibly Tuesday evening. The second symposium will be scheduled for Tuesday afternoon.
