Thirteenth Postgraduate Course

Washington, D. C.

January 19-21, 1966

Entitled "Diabetes in Review: Clinical Conference 1966," the Thirteenth Postgraduate Course of the American Diabetes Association will be held at the Hotel Mayflower in Washington, D.C., January 19, 20 and 21. Open to Doctors of Medicine, the Course was developed by the Association's Committee on Professional Education. Louis K. Alpert, M.D., Washington, D.C., and Samuel P. Asper, Jr., M.D., Baltimore, are Co-Directors of the Course.

REGISTRATION: A Preliminary Program which includes an application form has been mailed to all members of the Association and to subscribers to DIABETES. This form should be filled out and mailed together with the fee to J. Richard Connelly, Executive Director, American Diabetes Association, Inc., 18 East 48th St., New York, N. Y. 10017. Applications will be accepted in the order received and registrations officially confirmed.

FEES: The registration fee for the three-day Course is \$40 for Members of the American Diabetes Association and \$75 for nonmembers. The full fee must be paid at the time of filing application. It will be returnable by the Association to any registrant who submits his withdrawal in writing no later than January 7.

Fellows, residents, graduate students and interns in medicine and allied sciences in schools and hospitals in the metropolitan areas of Washington and Baltimore may attend the Scientific Sessions without charge; they should register by January 7. If space permits, medical students in the same areas may register without charge after January 7.

HOTEL ACCOMMODATIONS: The Mayflower will serve as the headquarters hotel. A reservation card will be sent to each registrant at the time that the application is acknowledged.

POSTGRADUATE CREDIT: Acceptable for accredited hours by The American Academy of General Practice.

TWENTY-SIXTH ANNUAL MEETING

The Twenty-sixth Annual Meeting of the American Diabetes Association will be held in Chicago, June 25-26, 1966. The La Salle Hotel will be headquarters for the Meeting.

Physicians and other scientists who would like to present papers at the Scientific Sessions are invited to submit abstracts to Edwin W. Gates, M.D., Chairman of the Committee on Scientific Programs. Eight copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent as soon as possible, but not later than March 1, 1966, to Dr. Gates in care of the national office at 18 East 48th Street, New York, New York 10017.

SUBMISSION OF ABSTRACTS

1. An Active Member may submit no more than two abstracts, one as author, and one as co-author. He may, in lieu of submitting abstracts, introduce no more than two abstracts on behalf of nonmembers. When submitting one abstract he may introduce one abstract by a nonmember.

2. While utilizing his prerogative with respect to a total of two abstracts, the name of a Member may appear once again as co-author, providing that the abstract was submitted by another Member. He may not, however, have another abstract of his own introduced by another Member.

3. Abstracts of nonmembers must be introduced by Active Members in accordance with #1 (see above) and are limited to one for a nonmember.

4. Abstracts are limited to 300 words. Those exceeding 300 words will not be accepted. The number of words contained in the abstract (excluding the title and authors) should appear at the end of the abstract.

5. Abstracts must be double spaced and eight copies must be submitted.

6. The headings of abstracts should be in the following form:

- a. Title(s), first letters of major words being capitalized.
- b. Author(s) name(s), no degrees (e.g., M.D.), or academic titles should be included.

c. Active Members serving as authors or co-authors should be indicated by an asterisk.

d. City and State of origin of work.

7. Abstracts accepted will be printed as submitted to the Chairman of the Committee on Scientific Programs. They should be carefully written and edited prior to submission. Changes may not be made after they have been submitted.

8. Abstracts must be postmarked not later than March 1, 1966.

9. Abstracts should not contain acknowledgments, diagrams, charts, tables or references. Charts or tables may be sent to aid the Committee in selecting abstracts for the program, but reference to charts, tables, etc., should not be made in the text since they will not appear in the published abstracts.

10. Papers are to be presented by the first author listed. Presentation at the Annual Meeting will be strictly limited to fifteen minutes to allow time for discussion.

1966 LILLY AWARD DEADLINE

December 1 is the deadline for receipt of nominations for the tenth Lilly Award which will be given at the Banquet on June 25, 1966, of the Twenty-sixth Annual Meeting of the American Diabetes Association. The annual award consists of \$1,000 and a medal. It is supported by Eli Lilly and Company. The following stipulations govern the contest:

Eligibility: Any investigator in an appropriate field of work, closely related to diabetes, who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the Members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before December 1 of the year preceding the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to December 1 of the year preceding the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in DIABETES. The winner will be invited to present a paper on his work at the Annual Meeting. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

NEWS OF AFFILIATE ASSOCIATIONS

The DIABETES ASSOCIATION OF OREGON sponsored a Hypoglycemic Symposium when it held its Annual Meeting on November 27 at the Benson Hotel, Portland. On the previous afternoon a "Workshop on Diets and Diet Calculation for Doctors, Nurses, Diet Supervisors in Nursing Homes, Etc.," was held in the Auditorium of Good Samaritan Hospital.

Rudolph M. Crommelin, M.D., President of the Oregon Affiliate, presided over the morning session of the Symposium at which Stefan S. Fajans, M.D., Professor of Medicine, University of Michigan Medical School, Ann Arbor, Michigan, was guest speaker. He spoke on "Spontaneous Hypoglycemia— with Recent Advances in Differential Diagnosis." Dr. Fajans later addressed a luncheon meeting on the subject: "Insulin Secretion under Physiologic and Pathologic Conditions." Also on the morning program was a paper by Robert T. Hare, M.D., entitled "Glucagon Reviewed," and a panel on "Experiences with Hypoglycemia in the Nondiabetic," with H. Kammer, M.D., as Moderator. The afternoon session was chaired by John W. Stephens, M.D., and consisted of a paper by Robert Dow, M.D., on "Neurological Manifestations and Complications of Hypoglycemia," and a panel on "Recognition and Treatment of Hypoglycemia in the Diabetic," with James Kuhl, M.D., as Moderator. Dr. Fajans concluded with a summary and comments.
