TWENTY-SIXTH ANNUAL MEETING JUNE 25-26, 1966

The Twenty-sixth Annual Meeting of the American Diabetes Association will be held at the LaSalle Hotel in Chicago, on June 25-26, immediately prior to the annual session of the American Medical Association, June 26-30.

Pertinent information about the Meeting, together with a hotel reservation card, was mailed to all Members of the Association in December. It is anticipated that there will be sufficient guest rooms for use by Members during the Meeting, as well as during the AMA Annual Convention. However, it is essential that those who plan to attend the Meeting and desire to stay at the LaSalle Hotel should complete the card and send it directly to the hotel as soon as possible.

The Scientific Sessions will be held Saturday and Sunday morning and afternoon, and the Annual Banquet and Social Hour are scheduled for Saturday evening, June 25. Members, their families, and friends are cordially invited to attend both the Banquet and Social Hour. A Banquet reservation form will be mailed to all Members in advance of the Meeting.

The titles of papers to be presented at the Scientific Sessions, those to be read by title, and other pertinent information will be published in this Journal. The Program itself, including abstracts of all papers, will be sent to the Members prior to the Meeting.

The abstracts will not be printed in the Journal, but will be published in the program, which will be of Journal size so that it may be included in the bound volume if the Members so wish.

Physicians and other scientists who would like to present papers at the Scientific Sessions are invited to submit abstracts to Edwin W. Gates, M.D., Chairman of the Committee on Scientific Programs. Eight copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent as soon as possible, but not later than March 1, 1966, to Dr. Gates in care of the national office at 18 East 48th Street, New York, N.Y. 10017.

SUBMISSION OF ABSTRACTS

1. An Active Member may submit no more than two abstracts, one as author, and one as co-author. He may, in lieu of submitting abstracts, introduce no more than two abstracts on behalf of nonmembers. When submitting one abstract he may introduce one abstract by a nonmember.

2. While utilizing his prerogative with respect to a total of two abstracts, the name of a Member may appear once again as co-author, providing that the abstract was submitted by another Member. He may not, however, have another abstract of his own introduced by another Member.

3. Abstracts of nonmembers must be introduced by Active Members in accordance with #1 (see above) and are limited to one for a nonmember.

4. Abstracts are limited to 300 words. Those exceeding 300 words will not be accepted. The number of words contained in the abstract (excluding the title and authors) should appear at the end of the abstract.

5. Abstracts must be double spaced and eight copies must be submitted.

ORGANIZATION SECTION

6. The headings of abstracts should be in the following form:

- a. Title(s), first letters of major words being capitalized.
- b. Author(s) name(s), no degrees (e.g., M.D.), or academic titles should be included.
- c. Active Members serving as authors or co-authors should be indicated by an asterisk.
- d. City and State of origin of work.

7. Abstracts accepted will be printed as submitted to the Chairman of the Committee on Scientific Programs. They should be carefully written and edited prior to submission. Changes may not be made after they have been submitted.

8. Abstracts must be postmarked not later than March 1, 1966.

9. Abstracts should not contain acknowledgments, diagrams, charts, tables or references. Charts or tables may be sent to aid the Committee in selecting abstracts for the program, but reference to charts, tables, etc., should not be made in the text since they will not appear in the published abstracts.

10. Papers are to be presented by the first author listed. Presentation at the Annual Meeting will be strictly limited to fifteen minutes to allow time for discussion.

DIABETES INDEX

The Index for Volume 14, 1965, of DIABETES is scheduled to be mailed before the end of March. It will be similar in content and style to those published in recent years. All members and subscribers to the Journal receive the Index without charge.
