Fourteenth Postgraduate Course Dallas, Texas January 18-20, 1967

Entitled "Diabetes in Review: Clinical Conference 1967," the Fourteenth Postgraduate Course of the American Diabetes Association will be held at The Statler Hilton in Dallas, Texas, January 18, 19, and 20. Open to Doctors of Medicine, the Course was developed by the Association's Committee on Professional Education, of which George J. Hamwi, M.D., Columbus, Ohio, is Chairman. Leonard L. Madison, M.D., Holbrooke S. Seltzer, M.D., Marvin D. Siperstein, M.D., Ph.D., and Roger H. Unger, M.D., all of Dallas, are Co-Directors of the Course. Edwin L. Rippey, M.D., also of Dallas, is Chairman of the Local Committee on Arrangements.

REGISTRATION: A Preliminary Program which includes an application form will be mailed to all Members of the Association, to subscribers to DIABETES, and to most internists, general practitioners and other interested physicians throughout the country. This form should be filled out and mailed together with the fee to J. Richard Connelly, Executive Director, American Diabetes Association, Inc., 18 East 48th Street, New

York, N.Y. 10017. Applications will be accepted in the order received and registrations officially confirmed.

FEES: The registration fee for the three-day Course is \$40.00 for Members of the American Diabetes Association and \$75.00 for nonmembers. The full fee must be paid at the time of filing application. It will be refunded by the Association to any registrant who submits his withdrawal in writing no later than January 7.

Fellows, residents, graduate students and interns in medicine and allied sciences in a training status, up to five years after graduation, may attend the Scientific Sessions without charge; they should register by January 7. If space permits, medical students may register without charge after January 7.

HOTEL ACCOMMODATIONS: The Statler Hilton will serve as headquarters hotel. A reservation card will be sent to each registrant at the time the application is acknowledged.

LUNCHEONS: The luncheons on Wednesday and Thursday will be by subscription and reservation forms will be sent to registrants at the time their applications are acknowledged.

PRELIMINARY PROGRAM

WEDNESDAY, JANUARY 18

Forenoon

- 9:00 Welcome by L. O. UNDERDAHL, President; GEORGE J. HAMWI, Chairman, Committee on Professional Education; and DONALD W. SELDIN, Professor and Chairman, Department of Internal Medicine, The University of Texas Southwestern Medical School
- I. Current Views on "Prediabetic" Lesions
L. O. UNDERDAHL, *Chairman*
- 9:10 The Genetics of Diabetes—ARTHUR G. STEINBERG
- 9:30 The Basement Membrane of the Muscle Capillary in Prediabetes and Diabetes—MARVIN D. SIPERSTEIN
- 10:00 The Basement Membrane in Diabetic Glomerulosclerosis—PAUL KIMMELSTIEL
- 10:30 Intermission
- 10:40 Insulin, Anti-insulin Factors and Obesity: Relationship to Diabetes—DAVID M. KIPNIS
- 11:20 Panel Discussion: The Primary Lesion of Diabetes to Mellitus — PAUL KIMMELSTIEL, Moderator; ARTHUR G. STEINBERG, MARVIN D. SIPERSTEIN, and DAVID M. KIPNIS

Noon

- 12:30 Round Table Luncheon—Questions and Answers (by to subscription) Junior Ballroom
- 1:45 GEORGE J. HAMWI, *Chairman*
Guests: GEORGE F. CAHILL, JR., STEFAN S. FAJANS, LAURANCE W. KINSELL, DAVID M. KIPNIS, and MARVIN D. SIPERSTEIN

Afternoon

- II. Regulation of Insulin Synthesis and Release: Factors Old and New
EDWIN L. RIPPY, *Chairman*
- 2:00 Classical Review and a New Factor: Auto-immune Disease of the Islets—GEORGE F. CAHILL, JR.
- 2:30 Glucagon and Glucagonoma—ROGER H. UNGER
- 3:00 Beta Cell Response to Oral Versus Intravenous Glucose Loads: The "Gastrointestinal Hormone"—J. DUPRE
- 3:30 Intermission
- 3:40 Stimulation of Insulin Release by Amino Acids—STEFAN S. FAJANS
- 4:00 Suppression of Insulin Secretion by Epinephrine, Diazoxide and Related Compounds—HOLBROOKE S. SELTZER
- 4:35 Panel Discussion: Physiologic, Pharmacologic and Artet-factual Modifiers of Insulin Secretion—GEORGE F. CAHILL, JR., Moderator; ROGER H. UNGER, J. DUPRE, STEFAN S. FAJANS, and HOLBROOKE S. SELTZER

Evening

- 6:30 Social Hour (by subscription), Ballroom Assembly
- 7:30 Banquet, Junior Ballroom
Entertainment

THURSDAY, JANUARY 19

Forenoon

- III. Treatment of Diabetes Mellitus
HAROLD L. DOBSON, *Chairman*
- 9:00 Diet in Practice: Does the "Anti-atherogenic" Diet Do Any Good?—LAURANCE W. KINSELL
- 9:30 Common Sense in Handling Diabetic Children and Adolescents—LUTHER B. TRAVIS
- 10:00 The Making and Breaking of Brittle Diabetes—HARVEY C. KNOWLES, JR.
- 10:30 Intermission
- 10:40 Pathogenesis and Treatment of Diabetic Acidosis and Hyperglycemic Coma—DONALD W. SELDIN
- 11:10 Insulin Resistance: Genesis and Management—BURIS R. BOSHELL
- 11:40 Panel Discussion: Oral Hypoglycemic Agents After a Decade of Use—ALEXANDER MARBLE, Moderator; GEORGE J. HAMWI, LEONARD L. MADISON, HARVEY C. KNOWLES, JR., and BURIS R. BOSHELL

Noon

- 12:30 Luncheon (by subscription) for registrants, their to wives, families and guests—Junior Ballroom
- 1:45 Entertainment by Mary Allen, narration and song

Afternoon

- IV. Extrapaneatic Sequelae of Diabetes
EDWIN W. GATES, *Chairman*
- 2:00 Lipid Abnormalities in Diabetes—MARVIN D. SIPERSTEIN
- 2:30 Clinical Heart Disease in Diabetes Mellitus—SEYMOUR EISENBERG
- 3:00 Gastrointestinal Derangements in Diabetics—JOHN S. FORDTRAN
- 3:30 Intermission
- 3:40 Evaluation of Vascular Surgery in Diabetic Arteriosclerosis Obliterans—MALCOLM O. PERRY
- 4:15 Question and Answer Panel: GEORGE J. HAMWI, Moderator; MARVIN D. SIPERSTEIN, SEYMOUR EISENBERG, JOHN S. FORDTRAN, and MALCOLM O. PERRY

FRIDAY, JANUARY 20

Forenoon

- V. Other Clinical Problems Related to Diabetes
GEORGE M. JONES, *Chairman*
- 9:00 The Natural History of Diabetic Retinopathy—ALBERT VAISER
- 9:20 Pituitary Ablation in Retinopathy—ALEXANDER MARBLE
- 9:40 Renal Disease in Diabetes (K-W and K.U.B. Infection)—NORMAN W. CARTER
- 10:10 Nonrenal Infections in Diabetics—JACK A. BARNETT
- 10:30 Intermission
- 10:40 Lactic Acidosis in Diabetics: Related Sequela or Coincidence?—DANIEL W. FOSTER

ORGANIZATION SECTION

- 11:00 The Endocrinology of Diabetic Pregnancy—GEORGE CLAYTON KYLE
 11:30 Question and Answer Panel: HARVEY C. KNOWLES, JR., Moderator; ALBERT VAISER, ALEXANDER MARBLE, NORMAN W. CARTER, JACK A. BARNETT, DANIEL W. FOSTER, and GEORGE CLAYTON KYLE
 12:15

Afternoon

VI. Hypoglycemic Syndromes

LEONARD R. ROBBINS, *Chairman*

- 2:00 Classification and Symptomatology of Hypoglycemia—STEFAN S. FAJANS
 2:30 Hypoglycemia in Infancy and Childhood—JAMES F. MARKS
 3:00 Alcohol Hypoglycemia: An Increasingly Important Syndrome—LEONARD L. MADISON
 3:30 Intermission
 3:40 Insulinogenic and Noninsulinogenic Hypoglycemias—SOLOMON A. BERSON
 4:15 Panel Discussion: Recognition and Treatment of Spontaneous Hypoglycemia—LEONARD L. MADISON,
 5:00 Moderator; STEFAN S. FAJANS, JAMES F. MARKS, and SOLOMON A. BERSON

FACULTY

JACK A. BARNETT, M.D., Associate Professor of Internal Medicine, Infectious Division, The University of Texas Southwestern Medical School, Dallas, Tex.
 SOLOMON A. BERSON, M.D., Chief, Radioisotope Service, Veterans Administration Hospital, Bronx, N.Y.
 BURIS R. BOSHELL, M.D., Professor of Medicine, Medical College of Alabama; Chief, Medical Service, Veterans Administration Hospital, Birmingham, Ala.
 GEORGE F. CAHILL, JR., M.D., Assistant Professor of Medicine, Harvard Medical School; Director, Elliott P. Joslin Research Laboratory, Harvard Medical School and the Diabetes Foundation, Inc., Boston, Mass.
 NORMAN W. CARTER, M.D., Assistant Professor of Internal Medicine, The University of Texas Southwestern Medical School; Junior Attending Physician and Director, Renal Clinic, Parkland Memorial Hospital, Dallas, Tex.
 HAROLD L. DOBSON, M.D., Associate Professor of Internal Medicine, Baylor University College of Medicine; Chief of Diabetic Clinic, Ben Taub Hospital, Houston, Tex.
 JOHN DUPRE, B.M., Assistant Professor of Medicine, McGill University Medical School; Director, Fraser Laboratory for Research in Diabetes, Royal Victoria Hospital, Montreal, Canada
 SEYMOUR EISENBERG, M.D., Professor of Internal Medicine, The University of Texas Southwestern Medical School; Chief, Medical Service, Veterans Administration Hospital, Dallas, Tex.
 STEFAN S. FAJANS, M.D., Professor of Internal Medicine, Division of Endocrinology and Metabolism and the Metabolic Research Unit, University of Michigan Medical School, Ann Arbor, Mich.
 JOHN S. FORDTRAN, M.D., Assistant Professor of Internal Medicine; Chief, Section of Gastroenterology, The University of Texas Southwestern Medical School, Dallas, Tex.

DANIEL W. FOSTER, M.D., Assistant Professor of Internal Medicine, The University of Texas Southwestern Medical School; Attending Physician and Assistant Director, Endocrine Clinic, Parkland Memorial Hospital, Dallas, Tex.

EDWIN W. GATES, M.D., Honorary Chief of Medicine and Director, Katherine Nye Bartlett Diabetic Teaching Unit, Niagara Falls Memorial Hospital; Consulting Physician, Mount St. Mary's Hospital, Niagara Falls, N.Y.

GEORGE J. HAMWI, M.D., Professor of Medicine and Director, Division of Endocrinology and Metabolism, The Ohio State University College of Medicine, Columbus, Ohio

GEORGE M. JONES, M.D., Clinical Associate Professor of Internal Medicine, The University of Texas Southwestern Medical School; Attending Physician, Baylor Medical Center, Parkland Memorial, and Presbyterian Hospitals; Chairman, Medical Section, Bristol General Hospital, Dallas, Tex.

PAUL KIMMELSTIEL, M.D., Distinguished Professor of Pathology, University of Oklahoma Medical Center, Oklahoma City, Okla.

LAURANCE W. KINSELL, M.D., D.Sc., Director, Institute for Metabolic Research, Highland-Alameda County Hospital, Oakland, Calif.

DAVID M. KIPNIS, M.D., Professor of Medicine and Director, Washington University Clinical Research Center, Associate Physician, Barnes Hospital, St. Louis, Mo.

HARVEY C. KNOWLES, JR., M.D., Professor of Medicine, University of Cincinnati, College of Medicine, Cincinnati, Ohio
 GEORGE CLAYTON KYLE, M.D., Assistant Professor of Clinical Medicine, University of Pennsylvania; Chief, Diabetic Clinic, Hospital of the University of Pennsylvania, Philadelphia, Pa.

LEONARD L. MADISON, M.D., Professor of Internal Medicine, The University of Texas Southwestern Medical School; Chief, Diabetes Clinic, and Senior Attending Physician, Parkland Memorial Hospital, Dallas, Tex.

ALEXANDER MARBLE, M.D., Assistant Clinical Professor of Medicine, Harvard Medical School; Physician, Joslin Clinic and New England Deaconess Hospital; Senior Associate in Medicine, Peter Bent Brigham Hospital, Boston, Mass.

JAMES F. MARKS, M.D., Assistant Professor of Pediatrics, The University of Texas Southwestern Medical School, Dallas, Tex.

MALCOLM O. PERRY, M.D., Assistant Professor of Surgery, The University of Texas Southwestern Medical School; Attending Surgeon and Vascular Surgery Consultant, Parkland Memorial Hospital, Dallas, and John Peter Smith Hospital, Ft. Worth; Consultant in Surgery, Methodist, St. Paul and Presbyterian Hospitals, Dallas, Tex.

EDWIN L. RIPPY, M.D., Clinical Associate Professor of Medicine, The University of Texas Southwestern Medical School; Senior Attending Physician, Baylor University Medical Center Hospital; Consultant, St. Paul Hospital, Dallas, Tex.

LEONARD R. ROBBINS, M.D., Associate Professor of Clinical Medicine, Baylor University College of Medicine; Attending in Medicine and Member of Isotope Committee, Hermann Hospital; Chief, Medical Service, Twelve Oaks Hospital, Houston, Tex.

DONALD W. SELDIN, M.D., Professor and Chairman, Department of Internal Medicine, The University of Texas South-

ORGANIZATION SECTION

western Medical School; Physician Chief, Medical Service, Parkland Memorial Hospital, Dallas, Tex.

HOLBROOKE S. SELTZER, M.D., Chief, Metabolic Section, Veterans Administration Hospital, Dallas, Tex.

MARVIN D. SIPERSTEIN, M.D., Ph.D., Professor of Internal Medicine, The University of Texas Southwestern Medical School; Attending Staff, Parkland Memorial Hospital; Consultant, Veterans Administration Hospital, Dallas, Tex.

ARTHUR G. STEINBERG, Ph.D., Professor of Biology, Western Reserve University, Cleveland, Ohio

LUTHER B. TRAVIS, M.D., Assistant Professor and Co-Director, Division of Renology & Metabolism, Department of Pediatrics, University of Texas Medical Branch, Galveston, Tex.

L. O. UNDERDAHL, M.D., Associate Professor of Clinical Medicine, Mayo Graduate School of Medicine, University of Minnesota; Mayo Clinic, Rochester, Minn.

ROGER H. UNGER, M.D., Associate Professor of Internal Medicine, The University of Texas Southwestern Medical School; Director of Research and Chief, Metabolism Section, Veterans Administration Hospital, Dallas, Tex.

ALBERT VAISER, M.D., Clinical Instructor in Ophthalmology, The University of Texas Southwestern Medical School, Dallas, Tex.

TWENTY-SEVENTH ANNUAL MEETING

The Twenty-seventh Annual Meeting of the American Diabetes Association will be held at the Hotel Dennis in Atlantic City, New Jersey, June 17-18, 1967.

Physicians and other scientists who would like to present papers at the Scientific Sessions are invited to submit abstracts to Harvey C. Knowles, Jr., M.D., Chairman of the Committee on Scientific Programs. Eight copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent as soon as possible, but not later than March 1, 1967, to Dr. Knowles in care of the national office at 18 East 48th Street, New York, N.Y. 10017.

SUBMISSION OF ABSTRACTS

1. An Active Member may submit no more than two abstracts, one as author, and one as co-author. He may, in lieu of submitting abstracts, introduce no more than two abstracts on behalf of nonmembers. When submitting one abstract he may introduce one abstract by a nonmember.

2. While utilizing his prerogative with respect to a total of two abstracts, the name of a Member may appear once again as co-author, providing that the abstract was submitted by another Member. He may not, however, have another abstract of his own introduced by another Member.

3. Abstracts of nonmembers must be introduced by Active Members in accordance with #1 (see above) and are limited to one for a nonmember.

4. Abstracts are limited to 300 words. Those exceeding 300 words will not be accepted. The number of words contained in the abstract (excluding the title and authors) should appear at the end of the abstract.

5. Abstracts must be double spaced and eight copies must be submitted.

6. The headings of abstracts should be in the following form:

- a. Title(s), first letters of major words being capitalized.
 - b. Author(s) name(s), no degrees (e.g., M.D.), or academic titles should be included.
 - c. Active Members serving as authors or co-authors should be indicated by an asterisk.
 - d. City and State of origin of work.
7. Abstracts accepted will be printed as submitted to the Chairman of the Committee on Scientific Programs. They should be carefully written and edited prior to submission. Changes may not be made after they have been submitted.
8. Abstracts must be postmarked not later than March 1, 1967.
9. Abstracts should not contain acknowledgments, diagrams, charts, tables or references. Charts or tables may be sent to aid the Committee in selecting abstracts for the program, but reference to charts, tables, etc., should not be made in the text since they will not appear in the published abstracts.
10. Papers are to be presented by the first author listed. Presentation at the Annual Meeting will be strictly limited to fifteen minutes to allow time for discussion.

NEW ADA IDENTIFICATION CARD

The American Diabetes Association is now distributing a new and much improved Identification Card bearing the universal Emergency Identification Symbol developed by the American Medical Association. The Card includes space for the name, address and telephone number of the diabetic and his physician; and for the kind, amount and time of dosage of insulin and/or oral medication. It also gives information as to emergency care in the event of a reaction to insulin or an oral compound.

The Identification Cards are available at 15¢ each or two for 25¢, with the following prices for larger quantities: 3-9 inclusive (10¢ each); 10-99 inclusive (8¢ each); 100 and over (6¢ each). Affiliate Diabetes Associations may purchase the larger quantities at a 10 per cent discount. Orders should be sent to the American Diabetes Association, Inc., 18 East 48th Street, New York, N.Y. 10017.

DECEMBER 1 DEADLINE FOR 1967 LILLY AWARD NOMINATIONS

The eleventh Lilly Award will be given at the Twenty-seventh Annual Meeting of the American Diabetes Association at the Hotel Dennis in Atlantic City on June 17-18, 1967. The following stipulations govern the contest for this annual award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work, closely related to diabetes, who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nominations: Nominations for the award will be solicited from the Members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees will be sent to the Chairman of the Committee on Scientific Awards and must be received before December 1 of the year preceding the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. At the discretion of the Committee on Scientific Awards, the award may be given for work published during the year prior to December 1 of the year preceding the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in DIABETES. The winner will be invited to present a paper on his work at the Annual Meeting. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

1967 RESEARCH AND ESSAY CONTESTS

Members of the American Diabetes Association and subscribers to DIABETES are asked to encourage medical students and physicians within five years after completion of medical school and bioscientists who are predoctoral or not more than two years postdoctoral to enter the 1967 Research and Essay Contests sponsored by the Association. Prizes to be awarded are as follows:

RESEARCH CONTEST: \$500 prize for the best paper reporting original work, whether laboratory investigation or clinical observation.

ESSAY CONTEST: \$250 prize for the best review article or case report.

The prize winners as well as those receiving Honorable Mention are also given a one-year subscription to DIABETES: *The Journal of the American Diabetes Association*.

The papers will be judged on the basis of value of the material and manner of presentation. Any subject relating to diabetes and basic metabolic problems may be selected.

Papers entered in the Contests should not have been published previously. Appropriate manuscripts will be considered for publication in DIABETES.

The deadline for receipt of entries is April 15, 1967.

Manuscripts should be submitted in triplicate (original and two copies), typewritten and double spaced. A letter of transmittal should accompany the manuscript specifying the Contest being entered, and addressed to: Committee on Scientific Awards, American Diabetes Association, Inc., 18 East 48th Street, New York, New York 10017.

NEW MEMBERS

The following were elected as of October 1, 1966:
Active

<i>California</i>		
Earll, Jerry M.		San Francisco
Steinberg, Terry		Los Angeles
<i>Maryland</i>		
Whedon, G. Donald		Bethesda
<i>Massachusetts</i>		
Davidoff, Frank F.		Boston
Macchi, I. Alden		Boston
<i>Michigan</i>		
Borden, E. Keith		Kalamazoo
Demissianos, Harry V.		Kalamazoo
<i>Missouri</i>		
Devrim, Ahmet S.		St. Louis
<i>New York</i>		
Lowenstein, Bertrand E.		New York
<i>Pennsylvania</i>		
Kunzman, E. Eugene		Philadelphia
Shaw, Ralph A.		Philadelphia
Williamson, John R.		Philadelphia
<i>Tennessee</i>		
Marsh, Frederick E.		Chattanooga
<i>Wisconsin</i>		
Veneziale, Carlo		Madison
	Other Countries	
	Active	
<i>Canada</i>		
Poznanski, Wojciech J.		Ottawa
<i>Italy</i>		
Benedetti, Andrea		Padova

NEWS NOTES

PROJECT HOPE

Project HOPE (Health Opportunity for People Everywhere), an international health organization, has openings for endocrinologists who wish to serve for a minimum of two months as volunteers on the S. S. HOPE from February to December 1967. Full transportation and maintenance are provided. There are also openings for physicians wishing to serve the full year. In addition, one- to two-year positions are available with continuing land-based programs.

The S. S. HOPE is a complete teaching medical center bringing training to the health professional in his own area. It is a demonstration hospital with a full complement of personnel. The ship has visited six nations. At the present time it is in Nicaragua cooperating in educational programs with the National University of Leon Medical and Dental Schools and the National School of Nursing. In February of 1967 a new program will begin in Cartagena, Colombia, with the Colombia Medical School Association and the University of Cartagena Schools of Medicine, Dentistry and Nursing.

Physicians interested in this international educational opportunity may secure further information from William B. Walsh, M.D., President, Project HOPE, 2233 Wisconsin Avenue, N.W., Washington, D.C. 20007.
