

ORGANIZATION SECTION

A special survey form relative to future Annual Meetings, particularly in juxtaposition with the meetings of The Endocrine Society and the American Medical Association, was included in the above-named mailing, as was an announcement about the Scientific Sessions of the Twenty-seventh Annual Meeting by Harvey C. Knowles, Jr., M.D., Chairman of the Committee on Scientific Programs. The announcement was accompanied by a questionnaire and information relative to the procedures for submission of abstracts of papers to be presented at the Meeting.

Physicians and other scientists who would like to present papers at the Scientific Sessions are invited to submit abstracts to Dr. Knowles. Eight copies of the abstracts, which are requested in order to expedite review by the Committee, should be sent as soon as possible, but not later than March 1, 1967, to Dr. Knowles in care of the national office at 18 East 48th Street, New York, N.Y. 10017.

SUBMISSION OF ABSTRACTS

1. An Active Member may submit no more than two abstracts, one as author, and one as co-author. He may, in lieu of submitting abstracts, introduce no more than two abstracts on behalf of nonmembers. When submitting one abstract he may introduce one abstract by a nonmember.

2. While utilizing his prerogative with respect to a total of two abstracts, the name of a Member may appear once again as co-author, providing that the abstract was submitted by another Member. He may not, however, have another abstract of his own introduced by another Member.

3. Abstracts of nonmembers must be introduced by Active Members in accordance with #1 (see above) and are limited to one for a nonmember.

4. Abstracts are limited to 300 words. Those exceeding 300 words will not be accepted. The number of words contained in the abstract (excluding the title and authors) should appear at the end of the abstract.

5. Abstracts must be double spaced and eight copies must be submitted.

6. The headings of abstracts should be in the following form:

- a. Title(s), first letters of major words being capitalized.
- b. Author(s) name(s), no degree (e.g., M.D.), or academic titles should be included.
- c. Active Members serving as authors or co-authors should be indicated by an asterisk.
- d. City and State of origin of work.

7. Abstracts accepted will be printed as submitted to the Chairman of the Committee on Scientific Programs. They should be carefully written and edited prior to submission. Changes may not be made after they have been submitted.

8. Abstracts must be postmarked not later than March 1, 1967.

9. Abstracts should not contain acknowledgments, diagrams, charts, tables or references. Charts or tables may be sent to aid the Committee in selecting abstracts for the program, but reference to charts, tables, etc., should not be made in the text since they will not appear in the published abstracts.

10. Papers are to be presented by the first author listed. Presentation at the Annual Meeting will be strictly limited to fifteen minutes to allow time for discussion.
