AMS Notices (Publications, Preprints, etc.)

- 1014 The Dynamic Meteorology of the Stratosphere and Mesosphere
1016 Curricula Book
1057 Preprint Volume, Third Symposium on Meteorological Observations and Instrumentation
1058 Preprint Volume, 16th Radar Meteorology Conference
1058 Employment Announcements

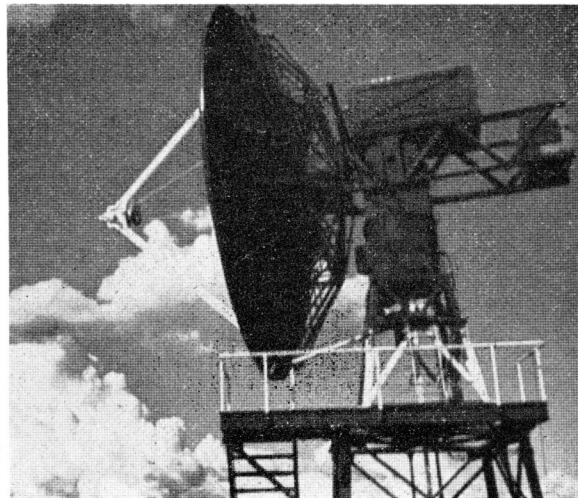

The deadline for advertising insertion orders is the 15th, two months prior to date of issue. Orders received after deadline are subject to space availability. Deadline for copy and/or plate is the 1st day of month, one month prior to date of issue. For advertising information contact: Evelyn Mazur, American Meteorological Society, 45 Beacon Street, Boston, Mass. 02108. Tel. 617-227-2425.

employment announcements

The American Meteorological Society issues employment announcements monthly, setting forth opportunities for positions in the atmospheric and oceanographic fields. The employers describe the prerequisites and requirements for the openings.

Members and nonmembers of the AMS may subscribe to the announcements. The subscription price per annum for twelve monthly issues is \$5 for AMS Members and Associate Members, \$2 for AMS Student Members, and \$25 for non-members.

The purpose of the Employment Bulletin is to provide a means by which those seeking positions in the atmospheric and related fields and those requiring personnel to fill such openings may have a convenient means of communication. Organizations that wish to avail themselves of this service should contact the American Meteorological Society for details and charges.

16TH RADAR METEOROLOGY CONFERENCE

April 22-24, 1975 Houston, Texas

AMERICAN METEOROLOGICAL SOCIETY

The Preprint Volume contains 109 papers presented at the 16th Radar Meteorology Conference held April 22-24, 1975 in Houston, Texas.

Papers are arranged under the following sessions:

Instrumentation and Signal Processing • Precipitation in Convective Storms • Kinematics of Convective Storms • Fundamental Studies and Techniques • Special Session: GATE • Report on the Radar Calibration Workshop • Motion Fields • Report on Satellite-Borne Radar • Acoustic Echo Sounding of the Atmosphere • Simultaneous Acoustic and Radar Studies of the Atmosphere • New Techniques for Clear Air Probing • Operational Applications Precipitation Statistics • Precipitation Physics • Precipitation Measurement and Z-R Relationships

515 pages

\$15 AMS Members
\$20 Nonmembers
