1652 Employment Announcements
1652 Second Conference on Coastal Meteorology

employment announcements

The American Meteorological Society issues employment announcements monthly, setting forth opportunities for positions in the atmospheric and oceanographic fields. The employers describe the prerequisites and requirements for the openings.

Members and nonmembers may subscribe to the announcements. The subscription price for a calendar year (12 monthly issues) is \$6 for AMS Members and Associate Members, \$3 for AMS Student Members, and \$25 for nonmembers (add \$10 for mailing to a foreign address; monthly issues will be sent via air mail). After July 1, half-year subscriptions (for July through December issues) are available at one half of the above annual prices.

The purpose of the Employment Announcements is to provide a means by which those seeking positions in the atmospheric and related fields and those requiring personnel to fill such openings may have a convenient means of communication. Organizations that wish to avail themselves of this service should contact Jean Cooper, American Meteorological Society, 45 Beacon Street, Boston, Mass. 02108 (617-227-2425), for details and charges.

Second Conference on Coastal Meteorology

January 30–February 1, 1980
Los Angeles, Calif.

The Second Conference on Coastal Meteorology, sponsored by the American Meteorological Society, was held 30 January–1 February 1980 in Los Angeles, Calif. A session on "Coastal and Ocean Studies" was held jointly with the 60th AMS Annual Meeting and the Third Conference on Ocean-Atmosphere Interaction. The volume contains more than 60 papers arranged under the following session topics:

- Coastal and Ocean Studies
- Pollution, Power Plant Siting, and Societal Needs
- Data and Forecasting
- CEWCOM-76, 78 and Marine Aerosols
- Sea and Lake Breeze
- Mesoscale Circulation
- Climatology, Synoptic-Scale Circulation, and Insolation
- Low-Level Wind and Gravity Waves
- MABLES WC and California Inversion
- Stratus/Fog and Marine Boundary Layer Structure
- Sea Surface and Subsurface Behavior

307 pages

\$15 AMS Members

\$20 Nonmembers

(plus \$2.00 postage/handling)
