The Call for Papers and Calendar sections list conferences, symposia, and workshops that are of potential interest to AMS members. Complete information about events listed in the calendar can be found on the meetings page of the AMS Web site, www.ametsoc.org/AMS. New additions to the calendar are highlighted. An exhibit program will be held at events marked with an asterisk.

To list an event in the calendar, please submit the event name, dates, location, and deadlines for abstracts, manuscripts, and preregistration to amsmtggs@ametsoc.org. For a submission to appear in a given issue, it must be submitted at least eight weeks prior to the month of publication (that is, to appear in the March Bulletin, the submission must be received by 1 January).

In an effort to allow scientists and students to efficiently gain access to the broadest and most historical perspective possible on their current research, the Society is pleased to offer the AMS Legacy Journals Online. For a fixed, one-time price, subscribers may purchase perpetual online access to every article published prior to 1997 in any or all of our journals (back to 1974 for Monthly Weather Review). Search capability at the title, author, abstract, and full-text levels makes the Legacy an incredibly powerful and exciting research tool. The table below shows the number of years of back issues that will be available for each issue.
