

EMPLOYMENT

Faculty Position in Climate Dynamics Department of Marine, Earth, and Atmospheric Sciences at North Carolina State University

The Department of Marine, Earth, and Atmospheric Sciences at North Carolina State University is seeking applications to fill a tenure-track faculty position at the assistant professor level, except for exceptional candidates, with an emphasis in global climate dynamics. Candidates with expertise in any of the following areas will be favorably considered: coupled global climate models, climate variability and climate change, as well as climate prediction. Applicants must hold a Ph.D. degree in the atmospheric or related physical sciences.

The successful candidate must demonstrate high potential for outstanding accomplishments in research, including development of a sponsored research program, graduate student mentoring, and teaching graduate and undergraduate courses.

Opportunities exist for the successful candidate for disciplinary and interdisciplinary interactions with more than 30 other faculty in the Marine, Earth, and Atmospheric Sciences. Additional information about the department and its facilities can be found on our web page: <http://www.meas.ncsu.edu>.

Further details on the position and instructions for application are provided on our website at: http://www.meas.ncsu.edu/Jobs/05-faculty_searches.html. We welcome the opportunity to work with candidates to identify suitable employment opportunities for spouses or partners. Review of applications will begin September 15th, 2007; the position will remain open until filled.

NC State University is an equal opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, national origin, religion, sex, age, veteran status, or disability. In addition, NC State University welcomes all persons without regard to sexual orientation. Applications from women, minorities, and persons with disabilities are encouraged. Individuals with disabilities desiring accommodations in the application process should contact Tami Talmadge via e-mail at tami_talmadge@ncsu.edu, phone 919-515-7773 or fax 919-515-7802.

Educators, students, and weather enthusiasts! A glossary of over 3000 terms on weather and climate designed specifically for a general audience! Produced under the Project ATMOSPHERE initiative, the development of The Glossary of Weather and Climate was inspired by increasing contemporary interest in the atmosphere and global change. The objective of the glossary is to provide a readily understandable, up-to-date reference for terms that are frequently used in discussions or descriptions of meteorological and climatological phenomena. In addition, the glossary includes definitions of related oceanic and hydrologic terms.
