

## ORGANIZATION SECTION

nomination should be accompanied by full information concerning the nominee's personality, training and research work. Six copies of each item should be submitted. No Member may send in more than one nomination. A list of the nominee's publications, if any, and six copies of the publication or manuscript for which the award is to be given should also accompany the nomination. The award may be given for work published during the year prior to December 1 of the year preceding the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

*Announcement:* The name of the winner will be announced in DIABETES. The winner will be invited to present a paper on his work at the Annual Meeting. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

*Award:* In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

### DIABETES WEEK, NOVEMBER 16-22

Affiliate Diabetes Associations and County and State Medical Societies are urged to participate in Diabetes Week to be observed November 16-22 this year. Diabetes Week, which always precedes Thanksgiving, highlights and renews the year-round Diabetes Detection Drive.

### JOURNAL SUBSCRIPTION RATE INCREASES FIRST OF THE YEAR

It has been found necessary to increase the yearly subscription price of DIABETES: *The Journal of the American Diabetes Association*, from \$14.00 to \$20.00. Printing and distributing costs have risen steadily and the Association can no longer absorb these charges. Also in the last four years the program for the Annual Meeting, which includes abstracts of all papers presented and read By Title, has been published as a supplement to the Journal, thereby increasing the cost.

The new rate becomes effective January 1, 1970. Subscriptions currently *in force* will be allowed to run through their expiration dates during 1970 at their previous rate.

The \$2.00 annual overseas postal charge for subscriptions outside the United States, U.S. possessions, Canada and the Postal Union of the Americas and Spain will remain unchanged. The single copy price, however, will increase from \$1.50 to \$2.00.

This is only the second time in more than eighteen years of publishing that the subscription rate has been increased. The first increase occurred five years ago when the frequency of issuance of the magazine changed from bimonthly to monthly. The new rate will permit publishing of additional pages in the Journal as needed.

On January 1, the Association will put into effect, for the first time, a multiple-year or long-term subscription rate structure. Under its terms, readers will save \$5.00 by subscribing to DIABETES for two years, at \$35.00. A three-year sub-

scription at \$50.00 will net a \$10.00 saving.

Members of the Professional Section, Honorary Members, Associate Professional Members and Corporate Members will continue to receive DIABETES as part of their membership prerequisites. There are no plans at present to increase dues.

Medical students and physicians within five years after completion of medical school, and bioscientists who are predoctoral or not more than two years postdoctoral will pay \$10.00 instead of \$7.00 a year for DIABETES.

## NEWS NOTES

### ASSOCIATION MEMBERS TAKE PART IN POSTGRADUATE COURSES

Members of the American Diabetes Association who will take part in postgraduate courses of The American College of Physicians include the following:

Reubin Andres, M.D., Baltimore, Co-Director of "Clinical Gerontology" to be held at The Shoreham Hotel, Washington, D.C., August 21-23.
