Renal Effects of Saline-based 10% Pentastarch *versus* 6% Tetrastarch Infusion in Ovine Endotoxemic Shock: Erratum

In the article beginning on page 936 of the April 2010 issue, figure 5 erroneously depicts liver instead of kidney histology, because images were confused during the submission process. The following images show the respective histologic changes of the kidney, which should have been included.

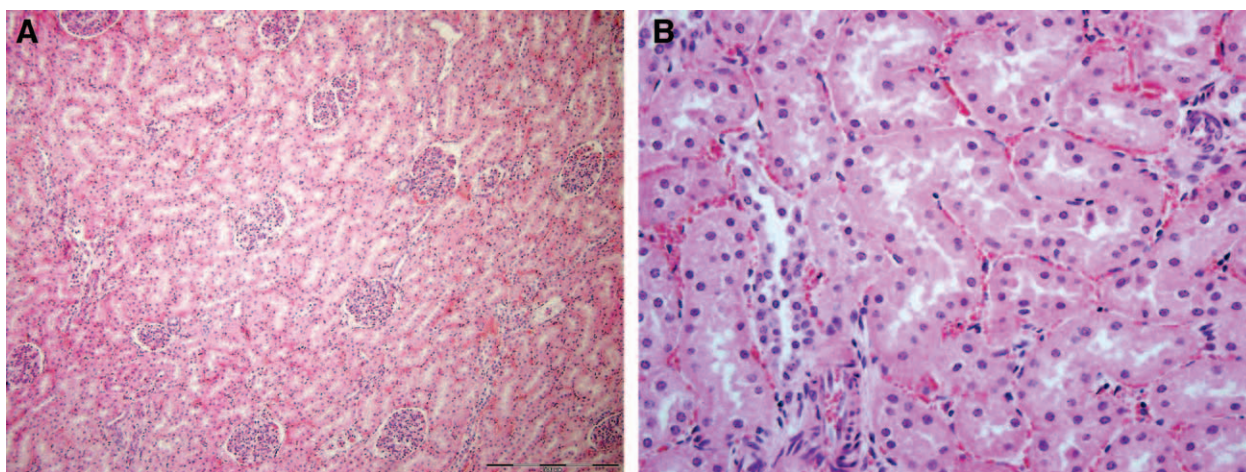

Fig. 5. Histologic changes of the kidney. (A) 100-fold magnification; (B) 400-fold magnification.
