

INFOGRAPHICS IN ANESTHESIOLOGY

Complex Information for Anesthesiologists Presented Quickly and Clearly

Anesthesia residents have variable responses to pain cues. Having practice opportunities with feedback may increase compassionate behavioral responses to patients in pain.

ETT, endotracheal tube; IV, intravenous; PONV, postoperative nausea and vomiting.

Infographic created by Jonathan P. Wanderer, Vanderbilt University Medical Center, and James P. Rathmell, Brigham and Women's Health Care/Harvard Medical School. Illustration by Annemarie Johnson, Vivo Visuals. Address correspondence to Dr. Wanderer: jonathan.p.wanderer@vanderbilt.edu.
