Correction

Error in Commentary

In the Invited Commentary "Possible Individual-, System-, and Policy-Level Contributors to Teen Pregnancy and Risk of Premature Mortality,"1 published March 14, 2024, there was an error describing the results of the study by Ray et al.2 In the first paragraph, the highest risk of premature death was among those whose pregnancies ended in livebirth, stillbirth, miscarriage, or ectopic pregnancy. This article has been corrected.1
