TWENTIETH POSTGRADUATE COURSE WILL BE HELD JANUARY 22-24

As previously announced, "Diabetes in Review: Clinical Conference 1973," the Twentieth Postgraduate Course of the American Diabetes Association, will be held at The St. Francis Hotel in San Francisco, California, Monday through Wednesday, January 22, 23 and 24. The program will be published in *DIABETES* and will be mailed separately in November to all Members and Journal subscribers as well as to most internists, general practitioners and other interested physicians throughout the country.

From 4:30 to 5:30 on Monday and Tuesday afternoons, there will be twelve simultaneous Workshops entitled as follows: "Management of Different Comas in Diabetes," "Hypoglycemia," "Management of the Prematurity Onset Diabetic," "Management of the Adult Type Diabetic," "Management of the Obese Diabetic," "Office Management of the Diabetic in General," "Management of Diabetic Neuropathy," "Management of Diabetic Nephropathy," "Management of Diabetic Retinopathy," "Management of Ischemic Vascular Disease of the Extremities," "Management of the Hyperlipidemic Patient,"

and "Social Problems in Diabetes: Insurance and Marriage."

The Course is an activity of the Committee on Professional Education of which Karl E. Sussman, M.D., Denver, is Chairman. Peter H. Forsham, M.D., San Francisco, is Director of the Course, with Gerald M. Reaven, M.D., Palo Alto, and George B. Robson, M.D., San Francisco, Co-Directors. Fee is \$100 for Members of the Association and \$125 for nonmembers.

NOVEMBER 15: DEADLINE FOR APPLICATIONS FOR RESEARCH AND DEVELOPMENT AWARDS

Applications for Research and Development Awards for the academic year 1973-1974, designed to assist exceptionally promising young investigators in their transition to the level of established investigators, must be postmarked on or before Nov. 15, 1972. Notification of Awards will be made by February 15.

The first and second highest rated applicants will receive the Elliott P. Joslin and Solomon A. Berson Research and Development Awards respectively. The recipients of these awards may

DECEMBER 1: DEADLINE FOR LILLY AWARD APPLICATIONS

have such designations for only one year, even though granted a Research and Development Award for a second year.

The following policies have been established by the Committee on Research:

Eligibility

Applicants must be members of University-affiliated institutions within the United States and U.S. possessions. Applicants should have had three years of relevant research experience with publications; residency training is not considered the equivalent of research experience.

The Committee on Research will give special consideration to the following:

1. Intent of applicant to pursue a full-time academic career.
2. Tangible evidence of research performance.

Stipend

The stipend will be \$12,000 per year plus the customary fringe benefits of the sponsoring institution, provided the recipient of the award qualifies for such benefits. If the award is renewed for one year, there is an increase of \$1,000, and any aforementioned customary benefits of the sponsoring institutions. Recipients are required to devote 90 per cent of their time to research activities; an institution may supplement the salary in accordance with the standards of the respective institution.

Payments will be made on the 15th of each month to the sponsoring institution.

Term

The awards will be made for one academic year, July 1 through June 30. Candidates may apply on a competing basis for a one-year-renewal period.

Submission of Applications

The sponsoring institution shall submit the application on behalf of the applicant. The application must be routed through the usual administrative channels of the sponsoring institution and include endorsement of the applicant's preceptor and the department head. Except for renewal applications, an institution may submit only one application per year. A statement of the institution's plans for the applicant's future career must be included.

It is required that the institution submit details and precise amount of its fringe benefit program as applicable to a salary of \$12,000.

Eleven copies of the application, as well as all supporting material, *must be postmarked no later than November 15* of the year preceding the academic year in which the award is desired. Notification of awards will be made by February 15.

The applicant's name and address should be written on the front of the enclosed postal card and returned with the application. It is necessary that this card accompany the application so that acknowledgment can be made to the applicant.

Institutional Overhead

It is understood that institutional expenses are *not* to be a part of the award.

Travel and Relocation

Expenses of travel and relocation are *not* reimbursable.

Application Forms

Forms may be obtained from: Mr. J. Richard Connelly, Executive Director, American Diabetes Association, Inc., 18 East 48th Street, New York, New York 10017.

The 1973 Lilly Award will be given at the Thirty-third Annual Meeting of the American Diabetes Association. The following stipulations govern the contest for this annual award, which is supported by Eli Lilly and Company and consists of \$1,000 and a medal.

Purpose: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

Eligibility: Any investigator in an appropriate field of work, closely related to diabetes, who is less than forty years of age on January 1 of the year in which the award is made. The research will not necessarily be judged in comparison to the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

Nomination: Nominations for the award will be solicited from the Members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in DIABETES. Names of nominees must be received before December 1 of the year preceding the award. The nomination should be accompanied by full information concerning the nominee's personality, training and research work. Eleven copies of each item should be submitted. No Member may send in more than one nomination. A list of the nominee's publications, if any, and eleven copies of the publication or manuscript for which the award is to be given should also accompany the nomination. The award may be given for work published during the year prior to December 1 of the year preceding the award. The nominee should be actively engaged at that time in the line of research for which the award is to be made.

Announcement: The name of the winner will be announced in DIABETES. The winner will be invited to present a paper on his work at the Annual Meeting. Papers considered for the award must be submitted with the idea that they will be published in whole or in part in DIABETES if found acceptable to the Editor and/or Editorial Board. If the Committee should decide that no outstanding work has been presented for this consideration, the award will not be made.

Award: In addition to the monetary award and medal, traveling expenses will be given to make it possible for the recipient to receive his award in person at the Annual Meeting.

THIRTY-THIRD ANNUAL MEETING WILL BE HELD IN CHICAGO

Site of the Thirty-third Annual Meeting of the American Diabetes Association, to be held the week of June 17, 1973, will be Chicago, Illinois. Scientific Sessions are scheduled for June 23-24.

NOVEMBER 12-18 IS DIABETES WEEK

Following the usual practice of observing Diabetes Week the week before Thanksgiving, Diabetes Week this year will be November 12-18. Affiliate Associations and Committees on Diabetes of County and State Medical Societies are urged to note this date in making plans for their Public Education and Detection programs.

EIGHTH IDF CONGRESS

December 31, 1972, is the deadline for submission of abstracts for the Eighth Congress of the International Diabetes Federation to be held July 15-20, 1973, in Brussels, Belgium.

AMERICAN DIABETES ASSOCIATION AWARDS RESEARCH GRANTS

Grants totaling \$47,407.70 have been awarded to ten research investigators at leading institutions for the year beginning July 1, 1972. Announcement of the grants was made by Rachmiel Levine, M.D., Duarte, California, who is Chairman of the Committee on Research. Recipients are: Pedro Cuatrecasas, M.D., The Johns Hopkins University School of Medicine; Samuel Cushman, Ph.D., Dartmouth Medical School; Victor R. Lavis, M.D., University of Washington; Lawrence H. Louis, Sc.D., The University of Michigan Medical School; Robert M. Nakamura, M.D., University of California, Irvine, California College of Medicine; Anthony S. Pagliara, M.D., Washington University School of Medicine; Raymond Pictet, M.D., University of California San Francisco Medical Center; Arthur Rubenstein, M.D., The University of Chicago; Donal A. Walsh, Ph.D., and Edwin G. Krebs, M.D., University of California, Davis; Wesley D. Wicks, Ph.D., National Jewish Hospital and Research Center.

Seventeen other Research Grant applications were deemed worthy of support on the basis of scientific merit but were not funded since money for this purpose is not available.

NEWS NOTES

SYMPOSIUM ON DIABETIC ANGIOPATHY

"Chronic Complications of Diabetic Angiopathy," a symposium to be presented by The Division of Family Practice, Department of Medicine, Crozer-Chester Medical Center, and The School of Continuing Education of Hahnemann Medical College and Hospital, will be held at Holiday Inn, Route 291, Essington, Pennsylvania, on November 1. Charles R. Shuman, M.D., Philadelphia, will be moderator of the program, which will include "The Biochemical Basis of Vascular Disease and Neuropathy," Rex S. Clements, Jr., M.D., Philadelphia; "Vascular Changes in Diabetes," Richard A. Field, M.D., Boston; "The Relationship of Diabetes Management to Vascular Disease," Buris R. Boshell, M.D., Birmingham, Alabama, and Alexander Marble, M.D., Boston. A panel discussion beginning at 4:00 p.m. will conclude the program. Fur-

ther information may be obtained from Seymour W. Milstein, Ph.D., M.D., Division of Family Practice, Crozer-Chester Medical Center, 15th Street and Upland Avenue, Upland, Chester, Pennsylvania 19013. Dr. Milstein and all participants are Members of the American Diabetes Association.

DIABETES WORKSHOP FOR NURSES

"The Care and Teaching of Diabetics," a workshop for registered nurses sponsored by Loma Linda University, will be held at Loma Linda, California, November 13-14. Charles H. Brinegar, Jr., M.D., is principal coordinator of the workshop. Guest lecturers include Clifford F. Gastineau, M.D., Rochester, Minnesota, and Richard J. Mahler, M.D., Duarte, California. Dr. Brinegar and the lecturers are Members of the American Diabetes Association. Further information may be secured from the Department of Education and Training, Loma Linda University Medical Center, Loma Linda, California 92354.

PERSONALS

DAVID M. KIPNIS, M.D., presented the Twenty-third Banting Memorial Lecture of The British Diabetic Association at the University of Sussex, England, on September 15. Dr. Kipnis, who is Professor of Medicine at Washington University School of Medicine in St. Louis, spoke on "Recent Studies on Insulin Secretion and Synthesis." Now Associate Editor of this Journal, he will succeed Harvey C. Knowles, Jr., M.D., as Editor on January 1.

WILLY J. MALAISSE, M.D., Brussels, Belgium, was awarded the 1972 Minkowski Prize at the Eighth Annual Meeting of the European Association for the Study of Diabetes held September 6-8 in Madrid. The prize which is awarded by Farbwerke Hoechst AG of Frankfurt, Germany, carries a grant of \$3,100 (DM 10,000) and is conferred each year for distinguished work in the field of diabetes by a research investigator not over forty years of age. Dr. Malaisse is head of the Laboratory for Experimental Medicine and lecturer in chemical pathology at Brussels University.

NECROLOGY

MICHAEL C. GIANCO, Cuyahoga Falls, Ohio, born July 15, 1922.

JACK M. KLUET, Perth Amboy, New Jersey, born December 26, 1913.

BENJAMIN A. MILLER, Philadelphia, born in 1907.

W. H. NEWCOMB, Jacksonville, Illinois, born January 9, 1894.

ASSOCIATION SEEKS DATA TO EXPAND RESEARCH PROGRAM

The American Diabetes Association plans to intensify its efforts on behalf of research in the field. It would be most helpful if concerned investigators would send to the Committee on Research brief statements concerning basic and clinical research programs which they would be interested in pursuing if support, including long-term funding, could be made available. In this way donors or Foundations could be made aware of specific areas of much needed work which require support. In many instances there is much greater interest in supporting a particular area rather than research efforts in general.

Please address your statements to the Chairman of the Committee on Research in care of the national office. In compiling a list of research subjects, names of investigators will not be used.

This project is unrelated to the Association's ongoing Research and Development Award and Research Grant programs.
