## THIRTY-FOURTH ANNUAL MEETING SCIENTIFIC SESSIONS JUNE 15-16

The American Diabetes Association will hold its Thirty-fourth Annual Meeting at the Regency Hyatt House in Atlanta, Georgia, the week of June 9. A special mailing has been sent to the membership outlining the procedures to be followed for submission of abstracts of papers to be presented at the Scientific Sessions June 15-16. The mailing included a form on which these abstracts are to be typed.

Physicians and other scientists who would like to present papers at these Sessions are invited to submit abstracts to Norbert Frein-

kel, M.D., Chairman of the Committee on Scientific Programs, in care of the American Diabetes Association, Inc., 18 East 48th Street, New York, N.Y. 10017. Abstracts must be postmarked not later than March 1. If received after March 4, they cannot be considered, regardless of the date of postmark. *Abstracts which have been offered to other national societies should not be submitted.*

## SIXTH ALLIED HEALTH POSTGRADUATE COURSE

As previously announced, the American Diabetes Association will hold its Sixth Allied Health Postgraduate Course in Diabetes

ORGANIZATION SECTION

April 22-24 in Atlanta, Georgia. The course will be presented under the auspices of the Committee on Professional Education of the Association, chaired by Karl E. Sussman, M.D., of Denver, and given in cooperation with the Diabetes Association of Atlanta and the Emory University School of Medicine. John K. Davidson, M.D., Ph.D., Atlanta, is Director of the course; Co-Directors are Maria T. Alogna, R.N., Mary Goldsmith, R.D., and Tevora S. Riley, R.N., all of Atlanta.

The course is offered in recognition of the need to convey the most current knowledge and teaching techniques to members of the health team who are concerned with instruction of diabetic patients and their families. It is directed in particular to nurses, nutritionists and dietitians.

The printed program, which will include a registration form, will be sent to all members of the Association and to thousands of leaders in dietetics and nursing throughout the country. The form should be completed and mailed with the registration fee as soon as possible.

FEE: \$75.00 for members of the Professional Sections of the American Diabetes Association; \$90.00 for nonmembers. The fee includes the Banquet and Luncheon. The fee, less a cancellation charge of \$10.00, will be refunded upon written request received no later than April 15, 1974.

## RESEARCH GRANTS PROGRAM

The Research Grants Program inaugurated six years ago by the Association's Committee on Research is being continued for the current year. Awards in excess of \$5,000 will not be made and applications for amounts between \$3,000 and \$5,000 are appropriate. These grants carry no commitment for overhead costs and expenditure for travel is not permitted.

The funds are unencumbered other than that they are to be used in research activities related to diabetes mellitus. Their purpose is to provide, for example, a necessary piece of equipment for which funds are not otherwise available, which would be useful on several projects in a given laboratory. The grant may be used for equipment and/or supplies and/or salary for technical assistance. The funds may be used in connection with a single research project or may be employed in more than one.

Applications should be by letter addressed to Mr. Harry Hansen, Director of Business Operations, American Diabetes Associa-

tion, Inc., 18 East 48th Street, New York, New York 10017; and be endorsed by the director of the laboratory, the chairman of the department, the dean of the school, and when required by the parent university, the institutional officer authorized to sign grant requests. Grants are limited to institutions within the United States and its possessions. Recipients may not transfer grants in whole or in part between institutions without prior approval of the Committee on Research.

The letter of application should include eleven copies of each of the following:

1. A complete outline of the applicant's past and present research activities.

2. A proposed budget listing in itemized form the envisioned use of the research grant.
3. A list of all related current support from other sources giving total amounts, source and period over which each grant extends.
4. Reasons for which application is being made for this grant.

Letters of application for grants to be awarded July 1 must be postmarked *no later than March 1 of the same year*. Applications for additional grants from the same investigator will be limited to one additional year and will compete with all applications submitted for that particular year.
