Walter F. Ward, Ph.D., Palmyra, Pa.
Hiroko Watanabe, M.D., Calgary, Alberta, Canada.
Mary A. Whitsitt, L.P.N., Oxford, Ga.
Hargrove F. Wooten, M.D., Houston, Tex.
Gerald D. Youker, M.D., Portland, Ore.
Linda Young, M.D., Tulsa, Okla.

ADA GRANT PROGRAM

The Research Grant program of the American Diabetes Association is being continued. Applications for amounts between \$8,000 and \$10,000 are appropriate; however, under *unusual* circumstances applications for up to \$20,000 will be considered. These grants carry no commitment for overhead costs or tuition, and expenditure for travel is not permitted. Grants are limited to institutions within the United States and its possessions. Recipients may not transfer grants, in whole or in part, between institutions without prior approval of the Committee on Research.

The funds are unencumbered other than that they are to be used in research activities related to diabetes mellitus. Their purpose is to provide, for example, a necessary piece of equipment for which funds are not otherwise available, which would be useful on several projects in a given laboratory. The grant may be used for equipment and/or supplies and/or salary for technical assistance.

Erratum

In Insulin Antibodies and Clinical Complications in Diabetics Treated for Five Years with Lente or Sulfated Insulin, by J. A. Little, R. Lee,

The funds may be used in connection with a single research project or may be employed in more than one.

Descriptive outlines and application forms may be obtained from Miss Catherine Ward, Administrative Assistant, American Diabetes Association, Inc., 600 Fifth Avenue, New York, New York 10020.

Applications for grants to be awarded July 15th, 1978, *must be postmarked no later than March 1, 1978. Applications received after March 5 will not be considered, regardless of the date of postmark.* Applications for additional grants from the same investigator will be limited to one additional year and will compete with all other applications submitted for that particular year. Notification of awards will be made by June 30.

FIRST JAMES ASHMORE AWARD

David Costill, director of Ball State University's Human Performance Laboratory, Muncie, Indiana, is the first recipient of the American Diabetes Association's \$8,250 James Ashmore Research Award. The award is named in honor of the late Dr. Ashmore, of Indiana University's School of Medicine.

Necrology

EWEN DOWNIE, M.D., Victoria, Australia, born April 22, 1902.

WILLIAM H. OLMSTED, M.D., St. Louis, Mo., born December 20, 1887.

NEWS OF AFFILIATE ASSOCIATIONS

The third New Mexico Metabolism Symposium will be held March 9-11 at the Holiday Inn, Taos, N.M. Speakers will be Edwin L. Bierman, M.D., University of Washington; George F. Cahill, Jr., M.D., Joslin Diabetes Foundation, Boston, Mass.; Gerald T. Roth, M.D., University of Connecticut Health Center; Martin Conway, M.D., Lovelace-Bataan Medical Center, Albuquerque, N.M.; R. Philip Eaton, M.D., University of New Mexico, Albuquerque; and Nicholas A. Volpicelli, M.D., Lovelace-Bataan Medical Center. For registration and information, apply to Office of Medical Education, Lovelace-Bataan Medical Center, 5400 Gibson Blvd., S.E., Albuquerque, N.M. 97108.

NEWS NOTES

Maria I. New, M.D., has been named the first Uris Professor of Pediatric Endocrinology and Metabolism at Cornell University Medical College, New York.

M. Sebriakova, and A. Cisma, DIABETES 26:10, October, 1977, p. 983, the mean and standard error for uric acid in the lente group is 4.5 ± 0.4 .
