Errata

Photoproduction and $(\gamma, 3n)$ Interaction. II

—Polarization of the Recoil Proton—

M. KATO and M. KAWAGUCHI

page line
426 Eq. (2.2) $B = -ie\sqrt{5.9} \ldots$ should read $B = ie\sqrt{5.9} \ldots$.
426 Eq. (2.6) $+\frac{1}{2}(A*D-AD^*)kq\sin\theta(2q^2-5kq\cos\theta+3k^2)$ should read $-\frac{1}{2}(A*D-AD^*)kq\sin\theta(2q^2-3kq\cos\theta+k^2)$.
427 Fig. 2. The sign of the polarization is wrong, because the unit vector is chosen as $k\times q/|k\times q|$ in the text. The change due to the error in Eq. (2.6) is small.
427 Fig. 3. Fig. 3 should be corrected as given here.
