

In Memoriam: Calvin C. Silverstein

Calvin C. Silverstein passed away in July 2007. He was a highly regarded expert in heat pipe technology and contributed to advancements in space travel, energy, and medical technology. He will be missed by his wife, children, grandchildren, and colleagues.

The Silverstein Family

We extend our deepest sympathy to the family and friends of Calvin Silverstein. We feel privileged to publish this paper to help honor his technical contributions to the medical devices field.
