

Organization Section

NEW MEMBERS

The following were elected to the Professional Section as of September 1983:

Robert I. Adler, MD, Plattsburgh, NY
Riyad Amin, PhD, Birzeit, Israel
Elaine J. Anderson, PhD, Lemoyne, PA
Barbara A. Baker, MD, Tulsa, OK
Maria S. Blahney, MD, Orange, TX
Vivian L. Braciale, PhD, St. Louis, MO
Judith A. Chown, MD, Port Jefferson Station, NY
Ernest C. Cook, Jr., MD, Ormond, FL
Jill N. Cox, RN, Pittsburgh, PA
C. Christopher Donner, MD, Belmont, CA
Margaret E. Dunnam, BSN, Jackson, MS
Aaron S. Fink, MD, Sepulveda, CA
Jeffrey S. Freeman, DO, Norristown, PA
David V. Fuchs, MD, Washington, PA
Donna E. Giles, PhD, Dallas, TX
Jean D. Gross, RN, Albuquerque, NM
Nassrolla Hakim, MD, Utica, NY
Klaus G. Hartmann, PhD, Elkhart, IN
Anthony R. Haywood, PhD, Denver, CO
Barbara R. Hirsch, MD, New York, NY
Jan M. Hoffman, MD, Los Angeles, CA
Patricia W. Hurtak, RN, BSN, Miami Springs, FL
William L. Isley, MD, Lackland Air Force Base, TX
Eric Johnson, MD, Bear Lake, CA
Eddy Karnieli, MD, Haifa, Israel
Linda M. Keefer, PhD, Louisville, KY
Yvonne J. Kightlinger, RN, Conneaut Lake, PA
Stanley R. Klein, MD, Torrance, CA
Shlomo Melmed, MB, BCh, Los Angeles, CA
Jose M. Montaivo, MD, Jackson, MS
Hiroshi Oohashi, MD, Tokyo, Japan
David J. Pettitt, MD, Phoenix, AZ
Deirdre M. Phillips, MD, Jackson, MS
Peter S. Rotwein, MD, St. Louis, MO
Phyllis A. Ruvo, RN, Punta Gorda, FL
Marcella M. Sanchez-Montoya, RN, Tucson, AZ
Gordon H. Sasaki, MD, Los Angeles, CA
Randy H. Schwartz, Augusta, ME
Ila G. Self, Little Rock, AR
L. Everett Seyler, Jr., MD, Hartford, CT
Jay A. Sher, MD, Brooklyn, NY
Lawrence J. Singerman, MD, Cleveland, OH
Jay M. Springer, MD, Ambler, PA
Gloria M. Terry, RN, Gary, WV
Louise M. Tiglio, MPH, Branford, CT
Barbara Vasquez, PhD, Phoenix, AZ
Johannes D. Veldhuis, MD, Charlottesville, VA
David B. Wilson, MD, Austin, TX
Joseph W. Yang, PhD, Maryland Heights, MO

NOMINATIONS FOR LILLY AWARD DUE DECEMBER 1, 1983

The 1984 Lilly Award will be given at the forty-fourth Annual Meeting of the American Diabetes Association. The following stipulations govern the

contest for this annual award, which is supported by Eli Lilly and Company and consists of \$2,000 and a medal.

PURPOSE: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

ELIGIBILITY: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1, 1984. The research will not necessarily be judged in comparison with the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

NOMINATION: Nominations for the award will be solicited from members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in *Diabetes and Diabetes Care*. Nominations must be received prior to December 1, 1983. The nominations should be accompanied by full information concerning the nominee's personality, training, and research work. Eleven copies of each item should be submitted. No member may send in more than one nomination. The nominee should be actively engaged at that time in the line of research for which the award is to be made. Nominations should be addressed to the Committee on Research, American Diabetes Association, Inc., Two Park Avenue, New York, New York 10016.

AWARD: In addition to the monetary award and medal, travel expenses will be given to make it possible for the recipient to receive the award in person at the Annual Meeting.

ANNOUNCEMENT: The name of the winner will be announced in *Diabetes and Diabetes Care*. The winner will be invited to present a paper on his or her work at the Annual Meeting's Scientific Sessions.

ADA FEASIBILITY GRANT PROGRAM

Applications for Feasibility Grants from the American Diabetes Association are due February 1, 1984 for funding beginning August 1, 1984. Applications for two years of support for amounts up to \$25,000 per year will be considered. Funding for the second year will be provided only upon receipt of a report satisfactory to the Committee on Research of the recipient's research activities and progress. Grants are limited to institutions within the United States and U.S. possessions. These grants carry no commitment for overhead costs or tuition. The funds may not be used for training stipends, postdoctoral fellowships, professional salaries, or other nontechnical salaries. Otherwise, the funds are unencumbered other than that they are to be used in research activities related to diabetes mellitus for the project described, in the year of the award. The funds may be used for equipment and/or supplies and/or salary for

technical assistance. Funds up to \$1,000 may also be used for travel to diabetes-related scientific meetings.

The purpose of this program is to assist investigators who want to test the feasibility of diabetes-related new and imaginative ideas in order to obtain preliminary data upon which a subsequent grant application could be based and submitted to NIH or other funding agencies. The program is intended primarily for new investigators without prior NIH or other significant support, for established investigators in the field of diabetes who are proposing projects which constitute a major departure from their ongoing research, or for established investigators in other fields who are proposing projects in which they will transfer their special expertise to diabetes-related research. Investors who have previously received pilot and feasibility money may not reapply for such funding in the same area of work.

Descriptive outlines and application forms may be obtained from the Contracts and Grants office of your institution or from Hope Hodson, American Diabetes Association, Inc., Two Park Avenue, New York, New York 10016.

COMPLICATIONS—PART II

The Clinical Society of the American Diabetes Association/New York Diabetes Affiliate will sponsor a combined health care course on November 19, 1983 at the New York University Medical Center. The title of the November course is "Complications—Part II." The topics of the lecture and workshops will focus on autonomic neuropathies, peripheral vascular disease, foot care, clinical case studies, current issues in dietary management, and blood glucose monitoring.

For further information, contact the NYDA office, 55 West 39th Street, New York, New York 10018. Tel: (212) 944-7899.

LIONS CLUBS INTERNATIONAL RESEARCH PROGRAM

The American Diabetes Association has been selected to administer the Lions Clubs International Research Program for 1983–1984. This program will fund Research Grants both in the United States and throughout the world. Grants are restricted to research related to diabetic retinopathy and may be in the form of Pilot and Feasibility Grants, Research and Development Awards, Fellowships, and Established Investigator Awards. Deadline for applications is December 20, 1983. For application information, contact the American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016. ATTENTION: Lions Clubs International Research Program.
