NOMINATIONS FOR LILLY AWARD DUE DECEMBER 1, 1983

The 1984 Lilly Award will be given at the forty-fourth Annual Meeting of the American Diabetes Association. The following stipulations govern the contest for this annual award, which is supported by Eli Lilly and Company and consists of \$2,000 and a medal.

PURPOSE: To recognize demonstrated research in the field of diabetes, taking into consideration independence of thought and originality.

ELIGIBILITY: Any investigator in an appropriate field of work closely related to diabetes who is less than forty years of age on January 1, 1984. The research will not necessarily be judged in comparison with the work of more mature and experienced workers. The candidate should be a resident of the United States or Canada.

NOMINATION: Nominations for the award will be solicited from members of the American Diabetes Association. Such nominations will be requested by repeated notices to be published in *Diabetes and Diabetes Care*. Nominations must be received prior to December 1, 1983. The nominations should be accompanied by full information concerning the nominee's personality, training, and research work. Eleven copies of each item should be submitted. No member may send in more than one nomination. The nominee should be actively engaged at that time in the line of research for which the award is to be made. Nominations should be addressed to the Committee on Research, American Diabetes Association, Inc., Two Park Avenue, New York, New York, 10016.

AWARD: In addition to the monetary award and medal, travel expenses will be given to make it possible for the recipient to receive the award in person at the Annual Meeting.

ANNOUNCEMENT: The name of the winner will be announced in *Diabetes and Diabetes Care*. The

winner will be invited to present a paper on his or her work at the Annual Meeting's Scientific Sessions.

ADA RESEARCH AND DEVELOPMENT AWARD

Applications for Research and Development Awards for the academic years 1984-85 and 1985-86 are due December 1, 1983. The following policies regarding this award have been established by the Committee on Research.

ELIGIBILITY: Applicants must be members of university-affiliated institutions within the United States or U.S. possessions, and be a U.S. citizen or have permanent resident status; have an M.D. or Ph.D. degree, or in the case of other health professions, an appropriate advanced degree; have at the time of the award a minimum of two, and preferably no more than five years of post-doctoral research experience with relevant diabetes-related accomplishments and publications (time spent in residency training is not considered equivalent to research experience); agree to devote at least 80 percent of time and effort to their research project during the period of the award and be a member or agree to become a member of the National Professional Section of the American Diabetes Association if funded.

STIPEND: Support is for a period of two years and is non-renewable. Salary stipend is \$25,000 per year plus the customary fringe benefits of the sponsoring institution for which the recipient of the award qualifies. The institution may supplement the salary to the level appropriate to the institution. Research grant support will be \$15,000 in each of the two years. These funds are intended to defray the support each year of a technician, and/or for supplies with travel for the recipient restricted to a maximum of \$1,000 and equipment to a maximum of \$1,000. A recipient will not be eligible to receive a separate American Diabetes Association Feasibility Grant during the term of the Development Award.

TERM: The award will be made for two academic years, from July 1 to June 30, but the funding of the second year will be approved by the Committee on Research only on receipt of a report satisfactory to them of the recipient's research activities and progress.

APPLICATION FORMS: Descriptive outlines and application forms may be obtained from the Contracts and Grants office of your institution or from

Hope Hodson, American Diabetes Association, Inc., Two Park Avenue, New York, NY 10016.
