### AMERICAN DIABETES ASSOCIATION TO MOVE TO ALEXANDRIA, VIRGINIA

In order to serve ADA's constituency more effectively and to better carry out the mission of the Association, ADA will move its National Service Center from New York City to Alexandria, Virginia, as of January 28, 1986. Beginning January 15, 1986, mail to ADA should be addressed to American Diabetes Association, Inc., National Service Center, 1660 Duke Street, P.O. Box 25757, Alexandria, Virginia 22313. Tel: (800) ADA-DISC (232-2472).

During January 20-27 inclusive, the ADA office will be closed to accomplish the move. If you have questions during this period, you may write to us at the Alexandria address or call (800) ADA-DISC. We will do our best to respond promptly.

### ADA 1986 ABSTRACT DEADLINE

The abstract deadline for the ADA's 46th Annual Scientific Sessions Meeting is January 14, 1986. Abstract forms have been inserted in the September/October issue of *Diabetes Care* and the Oc-

tober issue of *Diabetes*. Abstract forms may also be obtained from Sharon Alleyne, American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

### ADA FUTURE MEETINGS

33rd Postgraduate Course: January 17-19, 1986, Waldorf Astoria, New York, New York.

46th Annual Meeting: June 19-24, 1986 (Scientific Sessions, June 22-24, Anaheim Convention Center), Anaheim, California.

34th Postgraduate Course: January 26-28, 1987, Orlando Marriott Resort, Orlando, Florida.

47th Annual Meeting: June 4-9, 1987, (Scientific Sessions, June 7-9, Indianapolis Convention Center), Indianapolis, Indiana.

35th Postgraduate Course: January 13-15, 1988, Marriott's Desert Spring Resort, Palm Desert, California.

48th Annual Meeting: June 9-14, 1988 (Scientific Sessions, June 12-14, New Orleans Convention Center), New Orleans, Louisiana.

### ADA FEASIBILITY GRANT PROGRAM

Applications for Feasibility Grants from the American Diabetes Association are due February 3, 1986 for funding beginning August 1, 1986. Applications for two years of support for amounts up to \$25,000 per year will be considered. Funding for the second year is dependent upon the approval by the Committee on Research of the recipient's progress report and budget. Grants are limited to institutions within the United States and U.S. possessions. These grants carry no commitment for overhead costs or tuition. The funds may **not** be used for training stipends, postdoctoral fellowships, professional salaries, or other nontechnical salaries. Otherwise, the funds are unencumbered other than that they are to be used in research activities relating to diabetes mellitus for the project described in the year of the award. The funds may be used for equipment and/or supplies and/or salary for technical assistance. Funds up to \$1,000 may also be used for travel to diabetes-related scientific meetings.

The purpose of this program is to assist investigators who want to test new and imaginative diabetes-related ideas in order to obtain preliminary data upon which a subsequent grant application could be based and submitted to NIH or other funding agencies. The program is intended primarily for new investigators without prior NIH or other significant support; for established investigators in the field of diabetes who are proposing projects which constitute a major departure from their ongoing research, or for established investigators in other fields who are proposing projects in which they will transfer their special expertise to diabetes-related research. Investigators who have previously received pilot and feasibility money may not reapply for such funding in the same area of work.

Descriptive outlines and application forms may be obtained from the Contracts and Grants office of your institution or from Lauren Smith before January 15 at American Diabetes Association, Inc., 2 Park Avenue, New York, New York 10016.

### ADA TRAVEL GRANTS FOR YOUNG INVESTIGATORS

The American Diabetes Association will provide travel grants for documented expenditures up to \$1000 for young investigators to attend the University of Virginia/American Diabetes Association International Conference on Research in Diabetes in Charlottesville, Virginia, the week of October 6, 1986. The conference will include lectures, discussions, workshops, and poster sessions.

Applicants for these ADA travel grants must hold a full-time faculty appointment at a U.S. university or research institute, must not have held such an appointment for more than five years on July 1,

1986, and must be active in diabetes research. Applications (25 copies) should include a letter from the applicant, his or her curriculum vitae and bibliography, and a letter from the applicant's scientific supervisor or section head that affirms eligibility and recommends the applicant. Applications must be received by February 3, 1986. Applications should be mailed to American Diabetes Association, National Service Center, 1660 Duke Street, P.O. Box 25757, Alexandria, Virginia 22313, Attention: Lauren Smith.

### COLORADO AFFILIATE SPONSORS DIABETES INSTITUTE

The Colorado Affiliate, Inc., of the American Diabetes Association will sponsor the 23rd Annual Colorado Diabetes Institute on January 29-February 2, 1986, at the Holiday Inn in Vail, Colorado. The program is designed for physicians and all health care professionals involved in the management of patients with diabetes mellitus. The objectives of the course are to present a comprehensive update of current issues regarding type I and type II diabetes. For further information please contact Arnold R. Schwanke, 2450 S. Downing, Denver, Colorado 80210. Tel: (303) 778-7556.

### GREATER PHILADELPHIA AFFILIATE OFFERS SYMPOSIUM

The Greater Philadelphia Affiliate, Inc., of the American Diabetes Association is sponsoring "Advances in the Understanding of Diabetes Mellitus," which is to take place on March 15, 1986, at the Adams Mark Hotel in Philadelphia, Pennsylvania. The etiologic diversity of diabetes, the role of counterregulation in glucose metabolism, and the hemodynamic basis for diabetic nephropathy are among the topics to be discussed. For registration form, contact Richard A. Colosi, 21 S. Fifth Street, Suite 570, Philadelphia, Pennsylvania 19106. Tel: (215) 627-7718.

### NORTH AMERICAN SYMPOSIUM ON DIABETES EDUCATION

The first North American Symposium on Diabetes Education will take place April 6-9, 1986, and is co-sponsored by the American Association of Diabetes Educators and the Professional Health Workers Section of the Canadian Diabetes Association, Toronto, Ontario, Canada. For information, contact Kate Doyle, E.D., AADE, 500 N. Michigan Avenue, Suite 1400, Chicago, Illinois 60611. Tel: (312) 661-1700.

### IMMUNOLOGY OF DIABETES SYMPOSIUM

The Muttart Diabetes Research and Training Centre at the University of Alberta, Edmonton, Canada, is hosting an international symposium on the immunology of diabetes from June 26 to 28, 1986. It is a satellite symposium of the 6th International Congress of Immunology of Toronto, and is co-sponsored by the Canadian Diabetes Association, the American Diabetes Association, and the International Diabetes Federation. The program will consider such topics as genetic susceptibility and immunopathology, environmental factors contributing to diabetes, and immunology of insulin. Issues in transplantation will also be discussed. A format of plenary sessions, workshops, and poster sessions will be followed. For further information contact G. D. Molnar, M.D., Co-Chairman, Room 8-113F Clinical Sciences Building, University of Alberta, Edmonton, Alberta, Canada, T6G-2G3. Tel: (403) 432-6855.

### DIABETES IN AMERICA

The National Diabetes Data Group, NIH, has published a compilation and assessment of the

scope and impact of diabetes in the United States entitled *Diabetes in America* (NIH Pub. No. 85-1468). The 32 chapters deal with epidemiology (incidence, prevalence, risk factors, sociodemography, mortality), complications (eye, kidney, DKA, heart disease, hypertension, stroke, peripheral vascular disease, pregnancy, infections, disability), medical care (therapy, hospitalizations, ambulatory care, nursing home patients), and economic aspects (health insurance, medical care costs). The volume is 680 pages and contains 95 illustrations and 513 tables. It can be obtained for \$23 from the National Diabetes Information Clearinghouse, 2115 East Jefferson St., Rockville, Maryland 20850.

#### **INSURANCE POLICIES AND DIABETES WORKSHOP**

This workshop (subtitled "New Perspectives in Diabetes Mellitus and Their Implications on Morbidity and Mortality") hopes to bring together top experts from the fields of medicine and insurance brokerage in order to exchange information and to plan cooperative studies to identify the subjects which will require revision in forthcoming years. The headquarters of the workshop will be the Aviya Sonesta Beach Hotel, in Eilat, Israel, from April 6 to 10, 1986. Fee for participants is \$140, plus accommodations. Address inquiries to Secretariat, Insurance Policies and the Diabetic Workshop, P.O. Box 50006, Tel Aviv 61500, Israel.

#### **CALL FOR PAPERS**

The 5th International Congress on Obesity, taking place in Jerusalem, Israel, September 14-19, 1986, announces its call for submission for abstracts. The Congress will consist of plenary lectures, symposia, and poster sessions exploring the causes, treatment, and prevention of obesity. The program will be supplemented by informal panels, study groups, and summarizing sessions. Also being accepted are abstracts for several complementary satellite symposia taking place in Israel before and during the Congress. Deadline for all abstracts is May 1, 1986.

All correspondence regarding guidelines and general information for the Obesity Congress and its satellite symposia should be addressed to Victor S. Wahley, M.D., Ph.D., Associate Chief of Staff for Medical Education, V.A. Medical Center-141, N. Chicago, Illinois 60604.

#### **FIRST IUIS CONFERENCE ON CLINICAL IMMUNOLOGY**

A two-day conference on clinical immunology will be held in conjunction with the Vth International Congress of Immunology, in Toronto, Canada, on July 5-6, 1986. These dates immediately precede the Vth International Congress. The conference will encompass plenary sessions, minisymposia, and a poster session. Among the major topics: re-

ceptor-antireceptor-mediated diseases; new trends in the management of disorders of autoimmunity, immunodeficiency, allergy, immunodiagnostic techniques, and transplantation; and a session concerned with human diseases caused by lymphotropic retroviruses. Registration and abstract forms may be obtained from K. Charbonneau, National Research Council of Canada, Ottawa, Ontario K1A 0R6, Canada.

#### **22ND EASD CONGRESS**

The European Association for the Study of Diabetes will be holding its 22nd Congress in Rome, Italy, on September 16-20, 1986. All EASD members will receive the customary mailing regarding the meeting in the Spring of 1986. All non-EASD members interested in presenting abstracts should contact the London Secretariat at E.A.S.D., 10 Queen Anne Street, London W1M 0BD, United Kingdom.

Also being held in Rome during Autumn 1987 is the Diabetic Complications '87 International Symposium, covering such topics as pathogenetic mechanisms of microvascular disease, including ocular microvascular disease, and pathologic changes in early stages of nephropathy. More information with regard to format and schedule can be obtained through the Organizing Committee, Diabetic Complications '87, c/o Instituto Gregorio Mendel, P.zza Galeno 5, I-00162 Roma, Italy.
