

## Correction: TMEFF2 Deregulation Contributes to Gastric Carcinogenesis and Indicates Poor Survival Outcome

In this article (Clin Cancer Res 2014;20:4689–704), which was published in the September 1, 2014, issue of *Clinical Cancer Research* (1), the authors provided incorrect versions of Figs. 5A, 5B, 6C, and 6E in the main text and Supplementary Figs. S1 to S6, which were published with the issue. The corrected main text figures are below; the corrected supplementary figures are posted online. In addition, a callout in the final paragraph of the article that reads "Supplementary Fig. S6G" should read "Fig. 6G." The results and conclusions put forth in the article remain unchanged. The authors regret this error.
