

ERRATA

J. F. Booker and K. H. Huebner, "Application of Finite Element Methods to Lubrication: An Engineering Approach," published in the JOURNAL OF LUBRICATION TECHNOLOGY, October 1972, pp. 313–323.

Our description of the system assembly process is somewhat confused by a subscripting error in the final equation of p. 323, which *should* read

$$K_{p'q} = K_{p'q} \text{ for } i = 1, \dots, m \\ j = 1, \dots, m$$
