We are pleased to announce that *Journal of Physical and Chemical Reference Data* now has two new Co-Editors, Dr. Donald R. Burgess, Jr. and Dr. Allan H. Harvey. Dr. Burgess is a Research Chemist in the Real Fuels Project (Computational Chemistry Group) of the Physical and Chemical Properties Division at the National Institute of Standards and Technology (NIST). His research interests lie in the areas of physical and chemical databases, thermochemical and chemical kinetic data for chemical processes in combustion and atmospheric chemistry, semiconductor processing, and

related areas. Dr. Harvey is a Chemical Engineer with the Theory and Modeling of Fluids Group of the Physical and Chemical Properties Division, NIST–Boulder. Harvey's research interests lie in the areas of phase-equilibrium thermodynamics, thermodynamics of dilute solutions, properties of humid gases, and thermophysical properties of water and aqueous systems.

Dr. Harvey and Dr. Burgess have already assumed the full duties of shepherding submitted articles through the review process and on to publication.
