EDITOR’S NOTE

Issue 41(1) carried an invited editorial on the controversy over the health effects of asbestos. The Council of the British Occupational Hygiene Society does not see in advance editorials, articles, or other material published in *Annals of Occupational Hygiene*. The Council and the current editor wish to make it clear that the opinions expressed in the article were those of the contributor, not BOHS. *Annals of Occupational Hygiene* has received the following letters about the editorial, and published them at the front of this issue to give them the same prominence as the editorial.
