

## ERRATUM

Erratum for the technical note "Prediction of Heat Transfer in Turbulent Flow Over Rough Surfaces," by R. P. Taylor, H. W. Coleman, and B. K. Hodge, JOURNAL OF HEAT TRANSFER, Vol. 111, pp. 568-572, May 1989:

The constant 1.403 in equation (15) of the referenced technical note was incorrectly published as 1.043 due to a typographical error. The correct expression is

$$\begin{aligned} \text{Nu}_d &= 2.475 \text{Re}_d^{0.4} \text{Pr}^{0.36}, \text{Re}_d < 100 \\ \text{Nu}_d &= 1.403 \text{Re}_d^{0.5} \text{Pr}^{0.37}, 100 < \text{Re}_d < 1000 \end{aligned} \quad (15)$$
