*The proper training*

## FOR BIOLOGY STUDENTS

**B**ECAUSE B&L Type H Microscopes are similar in all operating essentials to the microscopes used in science and industry, they are invaluable in familiarizing the biology student with the technique he will use in his future professional life. That is why students should be trained with B&L Type H Microscopes.

Type H Microscopes are available with various equipment and will accommodate all accessories for advanced work. For complete details write for Booklet D-185 to Bausch & Lomb Optical Co., 718 St. Paul St., Rochester, N. Y.

Bausch & Lomb have redesigned the LRM and ERM Balopticons to provide greater ease of operation and better still, projection performance. Whether you use slides or opaque objects or both, it will amply repay you to investigate these two new Balopticons. Ask for folder #E-132.
