## Non-Commercial SPONGE SET

The Non-Commercial sponges represent a group of sponges valueless to the commercial sponge industry because when dried their skeletons are brittle and not soft and pliable as in the bath sponge. Odd shapes and sizes are the outstanding features of this group and they are of great interest to biologists. Our unmounted set contains such types as: vase or cup, loaf, finger, branching, tube and tree sponge.

**Per set of six (Number 2X33) \$2.50**
