

Present Your Medically Challenging Cases at **ANESTHESIOLOGY® 2020**

Submission Deadline: May 26, 2020 (11:59 p.m. ET)

The Medically Challenging Cases sessions provide attendees and residents the opportunity to present interesting and challenging cases they have managed in their own practice. This section continues to be a resounding success, and each year the number of presentations grows, with more than 2,100 poster sessions presented at the 2019 meeting. Discussion is very lively at the poster presentations, and each year the committee strives to provide the most interactive and educational experience possible. In 2019, the moderated discussions were enhanced to provide increased time for interaction among the moderators, presenters and attendees, which promoted more in-depth discussion, feedback and a comprehensive

educational experience. Medically Challenging Cases were presented using an electronic format where each session was moderated by an expert physician faculty member. Each session was overseen by a member of the Committee on Scientific and Education Exhibits.
