

Correction: A Modeling Approach to Explain Mutually Exclusive and Co-Occurring Genetic Alterations in Bladder Tumorigenesis

In this article (Cancer Res 2015;75:4042–52), which appeared in the October 1, 2015 issue of *Cancer Research* (1), the authors have changed the description of the Supplementary Logical Model to improve accessibility of the model file; the model itself has not been changed, but Supplementary Table S1 has been updated to clarify some logical rules and thus to ease model reconstruction.
