

Errata

In the article by Basu *et al.*, which appeared in the September 1, 1993 issue of *Cancer Research*, pp. 3948–3955, the names of the compounds in the second paragraph of the “Materials and Methods” section on p. 3949 are incorrect. They should be: N^1, N^5, N^9 -tribenzyl-5-aza-1,9-diaminononane and N^1, N^{19} -bis(*p*-toluenesulfonyl)- N^5, N^{10}, N^{15} -tribenzyl-1,19-bis(ethylamino)-5, 10, 15-triazanonadecane.

A printer’s error occurred in the article by Taguchi *et al.*, which appeared in the September 15, 1993 issue of *Cancer Research*, pp. 4349–4355. Figure 5 on p. 4354 was reversed. The correct version appears below:

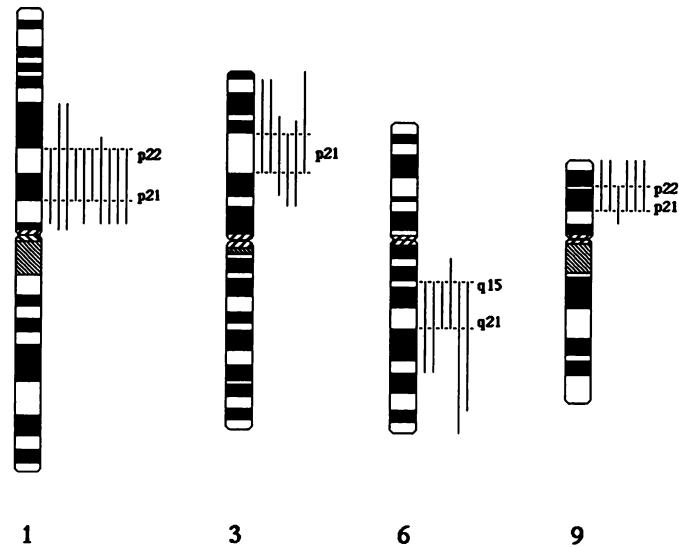

Fig. 5. Schematic representation of regional losses of 1p, 3p, 6q, and 9p resulting from interstitial and terminal deletions. *Vertical lines*, deleted segments in individual tumor specimens or cell lines. The SRO of chromosomal losses are at 1p21-p22, 3p21, 6q15-q21, and 9p21-p22.
