Errata

On Page 115, column 2, section on “Stability With Flow Rotation,” line 3, \( \bar{n} = 0.05 \) should be \( \bar{n} = 0.2 \).

On Page 116, Fig. 3, the label \( m = 10 \) should point to the solid curve immediately above the one to which it was shown pointing. Also, the last numerical value on the abscissa should be 0.15 instead of 1.5.
