

## ACKNOWLEDGMENT OF REVIEWERS

The Editors of *Demography* depend heavily on the judgment of outside reviewers in selecting manuscripts for publication. We thank our colleagues for their contribution to this process. The following persons served as referees during the period October 1, 1997 to September 30, 1998. An asterisk indicates that a reviewer served more than once during this period.

- |                       |                               |                           |                       |
