

Erratum: “Strain-rate Dependent Stiffness of Articular Cartilage in Unconfined Compression” [ASME J. Biomechanical Engineering, 2003, 125, pp. 161–168]

L. P. Li, M. D. Buschman, and A. Shirazi-Adl

In Section 3 (p. 165) first full sentence. When E_f^e is reduced by 25% (not shown), there is no change (negligible) in the stiffness for the strain rate 0.05%/s and almost no change for the strain rate 0.05%/s.

It should have read: When E_f^e is reduced by 25% (not shown), there is no change (negligible) in the stiffness for the strain rate 0.05%/s and almost no change for the strain rate 0.5%/s.
